MAY 2023

Brett Shoet, Editor

Hello and welcome to this month's edition of **VISION** Bishop's Stortford. I hoped you enjoyed the Easter break and took the chance to spend time with family and friends. In this fast-paced world, it's easy to forget to relax and chill out, so I hope you remembered to take some time for yourself too.

The world is constantly changing, and technology is moving at such a fast pace that it can be difficult to keep up with. AI is a subject on many people's lips at the moment. While some are uncertain about its capabilities, I think it's important not to be afraid of change and to embrace the potential offered to us by such technology.

Our cover star this month is Lewis Capaldi, who is heading out on a UK tour following the release of his new album. I recently watched his Netflix documentary, *How I'm Feeling Now*, and it offered a fascinating insight into his journey on the road to fame, particularly with his struggles with mental health. It drove home the important message about looking after our mental health, and that talking about such issues is the first step to destigmatising them.

I'd encourage everyone to support their local businesses while out and about during the bank holidays coming up this month. Whether that's shopping in an independent boutique or visiting a local restaurant for lunch, they are sure to appreciate your support.

*Brett Shoet*

# FROM LILY SAVAGE

The death of Paul O'Grady MBE at the end of March brought a premature end to the life of one of our most respected modern-day entertainers – someone whose own reinvention helped the gradual process of changing attitudes in British society.

Growing up on the sometimes rough, often competitive back streets of Liverpool in the Swinging Sixties required more than a little spark and swagger, so it's probably little surprise that one of its finest exports, Paul O'Grady, created a career built on the foundation of his larger-than-life personality.

"As the saying goes, if you can't beat them, join them – and if you can't join them, become a drag act," laughed Paul O'Grady in one of this final interviews.

He departed from us at 67, seemingly with another decade or two of wit, charm and pzazz still ready to be unleashed, and the tributes have been extensive and heartfelt.

O'Grady had a number of jobs growing up, including working as a clerk, a waiter and a barman. It was only when he moved to London that he managed to create a career out of his passion for entertainment and performance.

The star's main outlet was the dynamic and daring Lily Savage, a drag queen act who became hugely popular on the underground scene, and eventually gained mainstream appeal when Channel 4 took up the option to give him a stint on *The Big Breakfast* after Paula Yates' resignation. The likes of *The Lily Savage Show*, *Blankety Blank* (which the character fronted for five years) and *Lily Live!* followed, showcasing the full mainstream evolution of a character. It was a long way from O'Grady's first TV appearance on *The Bill* back in 1988 as a transvestite prostitute informant named Roxanne (credited to Paul Savage).

While Lily Savage was eventually retired, the legacy of such a dynamic figure lived on. The character had opened doors for a brand of leftfield entertainment, and helped carve a path for LGBTQ+ rights and promotion across mainstream entertainment.

"I had been in that world since the seventies when I began performing in pubs and clubs around London, so it was all very natural for me, and had been for decades," he said.

"That I lived in a country that embraced me and loved me for who I was, I found wonderful, and it compelled me to go on to do other things."

The successful *The Paul O'Grady Show* ran on weekday afternoons for eight years across two spells, and the entertainer also saw huge popularity across extensive theatre, charity and radio work, as well as the likes of *Blind Date* and *For the Love of Dogs* (2012-23). The latter of these popular TV programmes was filmed in late 2022 and is currently showing on ITV1.

In recognition of his contributions to TV, radio and theatre, he was made an honorary Doctor of Arts at De Montfort University Leicester in 2010.

"I always found you can talk about absolutely any subject if you approach it with interest, respect, humility and humour. That's the way I have tried to embrace all the challenges that have come my way," he said.

His funeral, which was held on April 20, featured a significant contribution from Battersea Dogs & Cats Home, who lined the streets with their four-legged residents in honour of the decade O'Grady spent presenting the ITV reality show at Battersea.

"I've always got on better with animals," he joked. "They are much more my type. As I've said before, I am not bothered about sex, money or fame. I just want a mongoose."

TO PAUL O'GRADY

# A GUIDE TO THE MOON

Have you ever wondered why the moon appears to change shape each night? These are known as the moon's phases, and it isn't actually the shape of the moon that changes but our view of it.

Find out more about the different phases and names of the moon below.

## WHAT ARE THE PHASES OF THE MOON?

- 1. New moon:** You cannot see the moon when it is a new moon.
- 2. Waxing crescent moon:** In the Northern Hemisphere, you see the waxing crescent moon as a thin crescent of light on the right.
- 3. First quarter moon:** The first quarter moon

## FULL MOON NAMES

Each monthly full moon has a special name, many of which originated from Native American culture:

- January:** Wolf Moon
- February:** Snow Moon
- March:** Worm Moon

- May:** Flower Moon
- June:** Strawberry Moon
- July:** Buck Moon
- August:** Sturgeon Moon
- September:** Full Corn Moon
- October:** Hunter's Moon

## WHAT IS A BLUE MOON?

A blue moon is an additional full moon that appears every once in a while. Typically, a year contains 12 full moons – three in each season – but sometimes a 13th full moon appears, known as a blue moon. Blue moons usually occur once every two to three years but can occur twice in one year. This is next due to happen in 2037.

## WHAT IS A HARVEST MOON?

The harvest moon is the full, bright moon that occurs closest to the start of autumn. The term comes from the days before electricity when farmers relied on the moonlight to harvest their crops at night.

appears as a half moon.

She may only recently have become a recognised TV star, but Esme Young has had a career most budding fashionistas can only dream of.

On first impressions, fashion designers Esme Young and Patrick Grant make unlikely candidates for a sparkling television duo, but that is precisely what they have become as judges on *The Great British Sewing Bee*.

Both have decades of experience in the fashion industry, yet it is Young's effervescent wit and charm that has made her a media darling in her twilight years. She is a natural in front of the camera, but given the Bedfordshire native's illustrious life and career – as revealed in her memoir *Behind the Seams: My Life in Creativity, Friendship and Adventure* – this is hardly surprising.

After graduating from Central Saint Martins in the early 1970s, Young and three of her female friends launched the Camden-based fashion collective Swanky Modes, whose designs appeared in *Vogue*

and were snapped by the likes of David Bailey and Helmut Newton. During these carefree years, Young lived in a squat in Maida Vale, partied with the likes of David Bowie and the Sex Pistols, and saw Swanky Mode dresses worn by superstars of the era such as Grace Jones and Cher.

In the 1990s, Young moved into cinema. Her creations included Leonardo DiCaprio's shirt in *The Beach* and Renée Zellweger's iconic bunny outfit in *Bridget Jones's Diary*.

Alongside her judging role, Young teaches at Central Saint Martins, where she passes down her sartorial wisdom. Musing on how she was taught darning, mending and crocheting by nuns at the all-girl convent school she attended, the talented designer confesses that while seeking perfection in the seams and sleeves she judges, she also wants to be excited and surprised by contestants' creativity.

It seems that, even at 74, Esme Young's best days remain ahead of her.

# A guide to make-up

## EXPIRATION DATES

Be honest, how often do you check the expiration date on your make-up? If the answer is hardly ever, then you're not alone.

Unfortunately, out-of-date make-up can cause a whole host of problems, including skin irritations and eye infections.

### FOUNDATION: Shelf life of six months to one year

You can keep your foundation germ-free for longer by keeping your fingers away from the neck of the bottle and gently dripping the formula onto the back of your hand before applying. If your foundation starts to separate, it definitely needs to be binned.

### CONCEALER: Shelf life of six months to one year

Similar to foundation, concealer can last up to one year as long as you keep it out of direct sunlight and avoid touching the applicator with your fingers. Again, if it separates, throw it away.

### LIPSTICK: Shelf life of one year

Typically, a lipstick should last for around 12 months. However, if you notice a change in texture, whether it has started to dry out or become gloopy, or if it starts to smell funny, it is no longer usable. Remember to store your lipstick in a cool, dry place.

### EYE PENCIL: Shelf life of one year

Pencils tend to last longer than other eye products as they are sharpened regularly. Keep away from steam for enhanced longevity.

### MASCARA: Shelf life of three months

If you don't want to get a nasty eye infection, you should be replacing your mascara once every three months or sooner if you notice that the formula has started to become clumpy or smell strange. Never share mascara.

### EYESHADOW: Shelf life of three to six months

Although powder eyeshadow can potentially last for up to two years, because it is used around the eyes, you should replace it more often.

**D**o you often find yourself Googling questions or symptoms you wish you could discuss with your doctor? Read on to discover 10 things your GP wishes you knew, and save yourself time and worry.

♥ **You do not need to clean your ears**

Earwax is needed to protect your ears and should not be removed with a cotton bud or any other small item. This may cause a perforated ear drum.

♥ **You do not have to have a period on the pill**

You don't need to have a break from the pill so that you have a period. Taking 21-day contraceptive pills back to back without having the seven-day break will not cause any ill effects.

♥ **You don't need to bring down a child's fever**

A fever shows that your body is fighting an infection so, if your child seems well in themselves, you do not need to bring down a high temperature. However, seek medical attention if it is 39.4°C or higher.

♥ **Verrucas do not need to be treated**

In most cases, a verruca will go away on its own in a few weeks or a month without the need for treatment. However, there are over-the-counter

remedies that you can use to treat them.

♥ **You do not need to drink eight glasses of water per day**

As long as you stay hydrated, aiming to drink eight glasses of water a day isn't a necessity.

♥ **Watching TV in the dark isn't bad for your eyes**

As long as you take regular breaks from watching TV or any other screen, watching TV with the light off is no worse than watching it with the light on.

♥ **You can drink alcohol on some antibiotics**

Most antibiotics do not interact with alcohol, so you can safely enjoy a drink if you feel well enough. However, you should always check the attached leaflet to be on the safe side.

♥ **Being cold will not give you a cold**

A cold is a virus and is not caused by cold temperatures or being outside.

♥ **Cracking joints doesn't cause arthritis**

Cracking of the joints is caused by bubbles of gas and is nothing to be worried about.

♥ **The five-second rule isn't real**

If your child eats food that has been dropped on the floor, this is highly unlikely to cause any problems.

# Honey

ON TOAST

NOT JUST FOR SPREADING

On May 20, it's World Bee Day – a time to celebrate those buzzing bugs that make honey.

### How do bees make honey?

Using their hollow tongues, bees suck up the nectar from flowers and store it in part of their stomach. Back in the hive, they regurgitate the mixture and spread it through the honeycomb cells. They then fan it with their wings to evaporate the moisture and turn it into honey. There are more than 300 different kinds of honey, depending on the flowers the nectar comes from.

Of course, honey is delicious spread on toast. But did you know it's also a great natural health and beauty aid because it contains micronutrients, including vitamins, minerals and antioxidants? It also has moisturising, antibacterial and anti-inflammatory properties. For maximum benefits, choose raw, organic honey.

### Healthy scalp and hair

To treat your scalp, use a tablespoon or two of honey straight from the jar. Leave for a couple of hours before rinsing and shampooing. For a hair mask, mix a tablespoon of honey with the same quantity of olive oil. Leave on for 15 minutes before rinsing and shampooing.

### Minor cuts, grazes and insect bites

If you're unlucky enough to suffer a cut or bite, simply dab on some honey to help with the healing process.

### Sore throats

To relieve a sore throat, mix a tablespoon of honey with ¼ teaspoon turmeric in a mug of warm water or tea, and sip when you need it. You can also use the mixture as a gargle.

### Healthy sleep

A tablespoon or two of honey before bed, eaten or in a drink, can help regulate your blood sugar and make you feel relaxed.

### Remember...

Never give honey to children under one year as certain bacteria in honey can produce toxins in a baby's intestines. Also remember that honey is high in sugar and calories. The information here is for guidance only – it is not medical advice.

# KIWILICIOUS!

FOOD & DRINK

Although small, kiwis pack a punch when it comes to both health benefits and flavour. They're sweet, easy to eat and highly nutritious, so explore this extremely underrated and underused fruit in more detail below.

### WHAT IS A KIWIFruit?

If you are unfamiliar with this fruit, then let us tell you a little more about it. Oval in shape and about the size of a large egg, kiwis boast brown skin, green flesh and tiny black seeds.

### WHAT ARE THE HEALTH BENEFITS OF EATING KIWIS?

Excellent source of protective antioxidants | Support heart health | Contain both soluble and insoluble fibre for digestive health | Good source of vitamin C | Alleviate some of the symptoms of asthma | Support immune function | Low in calories | Count as one of your five-a-day

### HOW TO ENJOY KIWIS:

#### KIWI FRUIT SMOOTHIE

**You will need:** 3 peeled kiwis | 1 peeled, stoned and chopped mango | 500ml pineapple juice | 1 sliced banana

Place all the ingredients into a blender and blitz until smooth. Serve over ice.

#### KIWI AND AVOCADO SALSA

**You will need:** 3 ripe chopped kiwis | ½ peeled and chopped avocado | ¼ cup of pomegranate seeds | 1 tbsp thinly sliced onion | 1 tsp chopped chilli peppers | 1 tsp extra virgin olive oil | 1 tsp chopped fresh coriander | Salt and pepper to taste

Place the kiwi, pomegranate seeds, avocado, onion and olive oil in a bowl. Add the chilli peppers and coriander and gently fold in, then season to taste.

#### KIWI AND STRAWBERRY LIME FRUIT SALAD

**You will need:** Handful of strawberries | 1 kiwi | 1 tbsp honey | 1 tbsp lime juice | ¼ cup of mint leaves

Chop the strawberries into small cubes and add to a mixing bowl. Peel the kiwis, chop into small cubes and add to the bowl. Add the honey, chopped mint and lime juice and gently mix together. Be careful not to bruise or mash the fruit.

# RAVISHING Rhubarb

An unusual vegetable owing to its very sour yet slightly sweet taste, rhubarb is instantly recognisable by its deep pink hue. Super simple to grow, rhubarb is popular for both sweet and savoury dishes.

Serve as it is or strain the liquid through a muslin-lined sieve first.

## 2 RHUBARB CHUTNEY

**YOU WILL NEED:** 250ml cider vinegar | 100g golden caster sugar | 300g chopped rhubarb | 4 chopped medjool dates | 1 tsp grated ginger | 1 cardamon pod

**HOW TO MAKE:** In a pan, heat the cider vinegar and caster sugar until dissolved | Add the chopped rhubarb, ginger, dates and cardamon pod and cook for 15-20 minutes | Once you have a thick chutney consistency, season with salt to taste | Store in sterilised jars for up to two years (unopened).

### What are the health benefits of rhubarb?

- > Contains high levels of fibre, which is linked to lower cholesterol levels
- > A good source of vitamin K, which is beneficial for your bone and heart health
- > Full of antioxidants that protect the body from free radicals
- > May help with digestion and to treat digestive disorders

### Rhubarb recipes

#### 1 RHUBARB GIN

**YOU WILL NEED:** 1kg pink rhubarb stalks | 400g white caster sugar | 800ml gin

**HOW TO MAKE:** Wash the rhubarb, trim the stalks and discard the base and leaves | Cut the stalks into 3cm lengths and place in a sterilised jar with the sugar. (To sterilise jars, wash in soapy water, rinse and then dry in the oven for 20 minutes at a temperature of 140°C/120°C fan/gas mark 1) | Shake and leave overnight | After 24 hours, add the gin, seal and shake again | Leave for four weeks before drinking |

# DOES YOUR DOG HAVE HAY FEVER?

Did you know that dogs can suffer with hay fever? In fact, an estimated 10 per cent of pooches in the UK suffer with this seasonal affliction.

## DOES MY DOG HAVE HAY FEVER?

Unlike in humans, who typically experience itchy eyes, sneezing and a runny nose, hay fever in dogs typically manifests itself on their skin. Look out for your dog itching, nibbling or rubbing any of the following spots:

Paws | Eyes, ears and mouth | Armpits | Abdomen | Legs | Around their bottom | Groin

In some cases, their skin may also look red, flaky and sore, or they may experience fur loss as a result of constant scratching.

## WHEN IS HAY FEVER SEASON?

When your dog suffers with hay fever will be dependent on where you live in the UK and what strain of pollen your dog is sensitive to. However, that being said:

- > Tree pollen occurs from late March to mid-May
- > Grass pollen occurs from mid-May to July
- > Weed pollen occurs from the end of June to September

## HOW TO TREAT HAY FEVER IN DOGS

Although hay fever cannot be treated, there are things that you can do to help manage their symptoms and make your dog feel more comfortable. Some of the available hay fever

treatments for dogs are:

- > Topical treatments, such as medicated shampoos and creams
- > Antihistamines (prescribed by your vet)
- > Essential fatty acid supplements
- > Medication to reduce your dog's immune reaction, such as steroids
- > Immunotherapy – although this is expensive and not always effective

## HOW TO MANAGE HAY FEVER IN DOGS

- > Walk your dog early in the morning or later in the evening to avoid high pollen counts
- > Keep your dog's ears clean to prevent irritation
- > Wipe your dog's fur, skin and paws with a damp cloth after a walk
- > Wash their bedding regularly
- > Vacuum your home regularly
- > Use an air filter system in your home
- > Stay up to date with your dog's flea and worming treatments

## CAN CATS GET HAY FEVER?

Yes, cats can also get hay fever and tend to experience many of the same symptoms as dogs, such as excessive itching, most commonly on the ears, bottom and paws. Cats may also snore as a result of an inflamed throat.

You can get topical creams and anti-itch wipes to alleviate their symptoms.

# Your guide to SPONGES

A GUIDE TO CHOOSING THE RIGHT SPONGES AND HOW TO KEEP THEM CLEAN

While you may not have given much thought to sponges, if you hate doing the dishes or cleaning kitchen worktops, the right sponge can help to make tiresome tasks a breeze.

### WHAT ARE THE MOST COMMON TYPES OF SPONGE?

#### NON-SCRATCH SPONGES

Sponges that are labelled as non-scratch are safe to use on non-stick pots and pans, as well as real wood surfaces. They also will not scratch the surfaces of ceramic bakeware. Non-scratch sponges are a good choice for cleaning glassware as they effectively remove dirt without causing any damage.

#### HEAVY-DUTY SPONGES

As the name suggests, heavy-duty sponges are highly abrasive so should be used to remove tough, stuck-on dirt and debris from kitchen items such as stainless steel pans. Heavy-duty sponges are not suitable for non-stick cookware, as they are likely to scratch their Teflon coating, nor for ceramic cookware or copper pans.

#### CELLULOSE SPONGES

Cellulose sponges are made from recycled plant fibres, making them a good option for those who want to reduce their carbon footprint and become more sustainable. The main benefits of cellulose sponges are that they are low-cost and very absorbent. However, they are also prone to collecting bits of food over time, so you need to make sure that you

sanitise your sponge weekly and throw it away when it shows signs of wear. Ideal for cleaning kitchens, windows, countertops and bathrooms.

#### HOW DO I CLEAN REUSABLE SPONGES?

The best way to kill bacteria harbouring in reusable sponges is to clean them in your microwave or dishwasher. If you choose the former, wet the sponge thoroughly and heat on high for one minute. Alternatively, place on the top rack of your dishwasher with the drying cycle on. Do this once a week for best results.

# fiddle-leaf fig

PLANT TO YOUR HOME

If you are looking for a new indoor plant for your home, then a fiddle-leaf fig is a great choice. With large, glossy leaves and an impressive trunk, this statuesque tree can act as the focal point in any room.

## WHAT ARE THE DIFFERENT TYPES OF FIDDLE-LEAF FIGS?

The most common type of fiddle-leaf fig plant is the *ficus lyrata*, which grows to around 10 feet tall when kept inside.

Other varieties include:

- > **Ficus lyrata bambino** – a dwarf variety that grows to only a few feet tall
- > **Ficus lyrata compacta** – features smaller leaves and grows to around five feet tall
- > **Ficus lyrata variegata** – an uncommon variety with a mix of green and cream leaves

## HOW TO CARE FOR A FIDDLE-LEAF FIG

A fiddle-leaf fig needs bright, filtered light to grow, as direct sunlight can burn its leaves. Any quality indoor plant potting mix is fine as long as the soil drains well. This plant needs a moderate amount of moisture to thrive; too much can cause root rot and too little can cause the leaves to wilt. During the growing season (spring to autumn), water when the top inch of the soil feels dry, and then slightly less over winter. Also add a fertiliser specially made for this plant during growing season and remember to regularly clean its leaves.

## HOW TO PRUNE A FIDDLE-LEAF FIG

To keep your fiddle-leaf fig in optimal condition, cut back any damaged leaves, overgrowth or crossing branches. Make the cuts about an inch away from the trunk to avoid damage.

## WHERE TO BUY A FIDDLE-LEAF FIG

You can buy fiddle-leaf fig trees either online or at some garden centres.

# LEWIS CAPALDI

## Someone We Love...

### THE ENDEAVOURS, INSPIRATIONS AND INSECURITIES OF LEWIS CAPALDI

We live in a world where our leading male singer-songwriters no longer have to subscribe to the airbrushed, heavily manufactured, perfectly coiffured boyband façades of the stars of decades gone by.

This has helped to create careers and vast wealth for the likes of Ed Sheeran, James Arthur, Rag'n'Bone Man and, now, Lewis Capaldi.

For the vast majority of us, this is a relief. Not only does it lend hope that any of us can aspire to and reach the most ambitious of heights; more importantly, it dispels the faux perfection that emanates from TV screens, devices and digital radios.

"I grew up in that era where everyone looked like they had just stepped off a catwalk," begins Capaldi, the 26-year-old Scottish singer-songwriter who has captivated the hearts of many with his soulful voice and emotive lyrics.

"We don't have to play those games anymore and I think there is much more allowance for us to be ourselves. It's real progress."

The star, who rose to fame with his chart-topping single *Someone You Loved* in 2019 – a track currently ascending past a colossal three billion streams on Spotify – is reaping the rewards of two decades of soul-searching and hard work... a process that came to light via a recent Netflix documentary, *How I'm Feeling Now*.

The production shone a light on the perseverance that has patterned his rise to the top, as well as giving the artist the opportunity to open up about living with Tourette's syndrome.

The neurological disorder is characterised by involuntary movements and vocalisations, known as tics. "It's something that has always been with me and perhaps always will, but it's so important I use my platform to reassure other people that

Tourette's doesn't need to hold you back from what it is you want to do," he says.

"For years, I felt imprisoned by it, before realising I could use it as a stimulus, because sometimes you need something to rally against in your life, and Tourette's is that thing for me."

Perhaps we shouldn't be surprised at Capaldi's ability to counter life's challenges. A deep thinker, the Scot's emotional attentiveness frequently comes across in his music. From the breakthrough *Someone You Loved*, a poignant ballad, characterised by its raw lyrics and melancholic piano melody, that spent seven weeks at the top of the UK singles chart and reached number one in the US too, to the soulful vocals and introspective lyrics of *Bruises*.

In 2022, both *Forget Me* and *Pointless* made it to the top of the hit parade as well. The former track was Capaldi's first meaningful release in three years, and despite huge previous success, his candid uncertainty was on show in the promotion of the track, when he revealed, "It could be the beginning of a beautiful chapter in my life, or the very public downward spiral that, let's face it, I'm probably due."

Of course, the artist needn't have worried, and he is now embarking on a UK tour to accompany the release of his album, *Broken by Desire to Be Heavenly Sent*, on May 19.

Capaldi is a singer-songwriter of impeccable talent but, almost as important, devastating humility... and he's here to stay.

## Nanny publishes her first children's book

A nanny from Bishop's Stortford has published her first children's book.

*Minnie Moo and Her Delightful Nanny* tells the story of a little girl's day with her nanny and the friendship they share.

Author Debbie Lawrence said: "I've been a nanny for more than 27 years and my favourite thing to do is cuddle up and read a lovely storybook to the children I nanny for, including my three children who are all grown up now.

"I've been overwhelmed by the release. I kept it secret between me and my family as I was a little humbled at it. My friends and family were all so surprised and proud of me. I had the story on my phone for months before I got the courage to send it to a publisher."

*Minnie Moo and Her Delightful Nanny* is available to purchase from Amazon, WHSmith and Waterstones.

The incident took place on the A120 just after 7.30am on Tuesday, April 18, and involved a black Vauxhall Vivaro van, a white Mercedes Sprinter van, a black Volvo estate and a white Ford Transit van.

A spokesperson for Hertfordshire Fire and Rescue Service said: "Hertfordshire Fire and Rescue Service were called to reports of a multi-vehicle collision on the A120 near where it crosses Hazeland Road.

"Four vehicles had been involved in a collision, with one person trapped in their vehicle.

"Firefighters stabilised the vehicles and released one person from their car and handed them over to the care of the ambulance service."

## Residents raise funds for earthquake victims

A group of women from Bishop's Stortford raised £2,603.88 for those affected by the recent earthquake in Turkey.

The Turkish Ladies Community Group organised a homemade food sale and raffle at Jackson Square Shopping Centre on Saturday, April 29.

The money will be donated to charities Acev and Atlas, who are supporting victims and plan to build two new schools in Turkey.

Co-organiser Dilek Cosar said: "We hear things on TV about the earthquake for a week and then it stops. People think it's done and dusted, but people are still trying to recover from what's happening.

"These charities need lots of funding and we want to help them as much as we can. We made a menu and everyone in our group picked out one thing to make. Lots of businesses in Bishop's Stortford donated to our raffle too."

## BSMB – The Next Chapter

VISION editor Brett Shohet has taken over the reins of a prestigious business exhibition in Bishop's Stortford.

Brett, owner of the B7 Media Group, is the new organiser of the Bishop's Stortford Means Business (BSMB) exhibition, which attracts more than 350 participants every year and has the slogan 'Be a part of it'.

Sponsored by London Stansted Airport, BSMB dates back to 2001 and was founded to provide an opportunity for businesses large and small to present their goods and services to the community.

Speaking about why he decided to take over the exhibition, Brett said he will be continuing the ethos of the exhibition, bringing creative ideas to support both new and loyal exhibitors and encourage even more visitors to attend.

He said: "I am consistently looking for ways to invest in our communities and promote local businesses.

"This exhibition is the next step in expanding and growing the Vision brand and we are hoping to roll out the exhibition to more areas in the future.

"In turn, this will help give local businesses the chance to promote and showcase their products and services."

Brett also wanted to express his gratitude to former organiser Robert Lee, who has been championing businesses across the community for more than 20 years.

Conservative MP for Hertford and Stortford

LOCAL NEWS

I cannot believe the coronation has already been and gone. The atmosphere was one of huge excitement, especially here in and around Bishop's Stortford. There were lots of fantastic local events and it was brilliant to see the town in such full swing.

I invited local primary school children to design a congratulatory card from our community to the King in preparation. I love running these kinds of competitions to mark such special occasions – from last year's jubilee bunting to my annual Christmas card competition. As usual, it was difficult picking a winner. Keep an eye out for the winning design on my social media channels.

Over in Westminster, I sat down with the Secretary of State for Levelling Up, Rt Hon Michael Gove MP (pictured inset), to raise a range of local issues. This included the proposed Gilston Garden Town development and the importance of developers

sticking to plans and commitments, such as affordable housing and community infrastructure like healthcare and educational services. I also want to make sure this housing is made available for local people, not just for London local authorities' overspill. We discussed leasehold reform and balancing local renewable energy projects like solar farms with preserving our all-important farmland too. Raising local issues with ministers is one of the most important parts of my job, and I will be sure to follow up on any developments.

I have hosted lots of constituents in Parliament for tours in recent weeks. If you would like to visit, please email my office at [julie.marson.mp@parliament.uk](mailto:julie.marson.mp@parliament.uk) with your full contact details and availability. I have also actioned more than 100 new constituents' individual casework problems in the past month alone. As always, I am here to help – please do not hesitate to get in touch.

# The hills are alive with the smell of lavender

This summer, why not marvel in a field of purple situated on the rolling slopes of the Wilbury Hills in North Hertfordshire?

Hitchin Lavender Farm, located on Arlesey Road just outside the popular market town of Hitchin, is one of the most popular nature attractions in the county, offering visitors the chance to explore more than 35 miles of lavender fields.

Hitchin Lavender Farm is owned and managed by Maria Noel Castro and Tim Hunter, whose family farming history dates back more than five generations.

Cadwell Farm, the home of Hitchin Lavender, has been in the Hunter family for more than 120 years, and they have overseen the running of Hitchin Lavender Farm since 2012.

Hitchin itself has a long heritage of lavender growing. Reports dating back to as early as the 1500s position the town as one of only two major growing areas in the country.

Back in the 16th century, lavender was a sought-after commodity for its medicinal properties. A local apothecary sold lavender products, which gave the town a nationwide reputation for its lavender.

Lavender was revived in the town when Alex and Zoë Hunter planted lavender at Cadwell Farm in 2000, with public interest encouraging the family to opening the farm to the public.

Today, with tens of thousands of people flocking to the farm each summer, it remains a popular destination for tourists from far and wide.

Visitors can take in the sights and smells of the lavender sprawled across the hills, as well as capture nature photos or family snaps against a beautiful, vibrant backdrop.

The lavender will be in flower from the end of June until the middle of August. Booking in advance is not required, but tickets are slightly cheaper when purchased online in advance. Guests can bring a picnic or visit the tea room and dining area, and can even pick their own lavender to take home.

In addition to the lavender, a field of sunflowers is expected to bloom at the farm in August.

# TO DIG OR NOT TO DIG?

Although it may seem strange, no-dig gardening is becoming increasingly popular owing to its ability to save time, banish weeds and ensure plants grow more healthily.

### WHAT IS NO-DIG GARDENING?

No-dig gardening is a method of cultivation that aims for minimal disturbance of the soil. Made popular by Charles Dowding, an author and avid gardener, no-dig gardening requires less fertiliser and pesticide, is suitable for any size garden, and can be used to grow flowers, shrubs or vegetables.

### WHAT ARE THE BENEFITS?

No-dig gardening is beneficial to your soil, garden and the environment, and can significantly reduce the need to weed. Soil stores a lot of carbon, which means that the more you dig, the more is released into the atmosphere. There is also evidence to suggest that digging upsets the structure of the soil.

### A GUIDE TO NO-DIG GARDENING

#### STEP 1: PREPARE THE AREA

Remove any large weeds and then cover the ground in a layer of light blocking material such as torn-up newspaper. If creating a no-dig area on grass, add a layer of manure and lime first.

#### STEP 2: ADD LAYERS

Add a layer of kitchen scraps, such as vegetable peelings or fruit waste, and a layer of compost made from leaves and grass cuttings. Then, add a layer of straw, another layer of compost, and finally another layer of straw.

#### STEP 3: MAKE WELLS FOR PLANTING

Create wells about 10cm deep in the top layer of straw and fill them with compost. Then, plant your seeds or seedlings into the wells. Water well and wait for your no-dig garden to grow.

# GOT SOME FRONT

Our front gardens are typically a bit more restrictive than the spaces behind our homes, but that doesn't mean we can't still make them look stunning.

They are the outdoor spaces that typically lack privacy, are exposed to dirtier air, and may even find themselves hosting a car or work vehicle. Therefore, for the added aggro our front gardens have to put up with, it's sensible to keep things simple, saving your energy for the private space at the back.

Beginning with plants and varieties of flowers, it's sensible to limit a front garden to perhaps just five or six variations. If you include too many different styles, it can create a hotchpotch of ideas that will only make your home look untidy.

Also try to prioritise privacy over prettiness. The front of our property is exposed to all and sundry, so carefully positioned hedges, shrubs and trees can keep unwanted eyes away. Just be sure not to

position larger living matter in front of windows to prevent blocking out the light.

When selecting plants, consider varieties that will last all year round, saving you a constant summer/winter change-up. Think summer roses that progress into gorgeous winter blossoms, and evergreens that will grace the changing seasons with constant class.

As far as a lawn goes, while artificial grass has never been better or looked more authentic, a small area of real grass, or perhaps one either side of a path, is low maintenance and can be taken care of with a simple mower. While it's tempting to bring a wild meadow into the equation, that look is always better achieved in a larger garden, where a rugged area is established in a well-tended garden.

Finally, if you're looking to pave or lay down slate or stone in a front garden, remember weeds will still work their way through, so keep an eye on things, particularly in the summer months.

*keeping your front garden low maintenance*

# The PEOPLE'S PALACE

Imagine living amid the smog, chaos and stench of Victorian London. Now imagine the bliss of fresh air and some live entertainment to take your mind off things. Alexandra Palace, which opened 150 years ago this month, was built to give Londoners that chance to escape the daily grind.

The palace opened on Queen Victoria's 54th birthday with a grand celebration. Tragically, fire destroyed the building just a fortnight after it opened. But two years later, it opened again – and this time it was bigger and better. There was a concert hall, theatre, circus, racetrack, boating lake, the Victorian equivalent of a food court, and even a Japanese-style garden.

Sadly, the privately owned palace and surrounding parkland struggled to make money. In 1900, the site was bought by the nation, and an Act of Parliament

decreed that it should remain "a place of public resort and recreation".

During the First World War, the palace was home to refugees and later became an internment camp for 'enemy aliens'. It became a refugee shelter again during the Second World War, and also a staging post for troops on their way back from Dunkirk.

But perhaps the palace is best known for its link to BBC television. The corporation launched the world's first television service from studios built in the palace's former dining rooms in 1936.

To this day, the palace continues to host leading events, including theatre performances, retail shows, gigs, fairs and festivals to honour its commitment to serve the public.

To find out what's on this summer, check out [alexandrapalace.com/whats-on](http://alexandrapalace.com/whats-on)

**Alexandra Palace was built as a north London version of Crystal Palace, which hosted The Great Exhibition in 1851. It was named after the Danish-born Princess Alexandra, who had just married Queen Victoria's eldest son – later to become Edward VII. It was called The People's Palace and soon became widely known as Ally Pally.**

# Europe's best SECOND CITIES

FIVE EUROPEAN COUNTRIES WHERE THE LESSER-KNOWN SECOND CITIES OFFER, ARGUABLY, MORE THAN THE CAPITAL

## 1. BERGEN, NORWAY

Many people visiting Scandinavia will instantly migrate towards Oslo for its green spaces, architecture and nightlife, yet for those looking to sample a more stylish, artistic side of Norwegian culture, Bergen is the choice. A seductive port decorated with colourful houses and romantic cobbled streets, it is the gateway to the fjords.

## 2. KRAKÓW, POLAND

Poland's elevation into a popular location to visit over the past 20 years has been impressive, and this is no better exemplified than in the way Kraków, its second city, welcomes visitors.

A former European Capital of Culture, it is a creative tourist's dream, with arts, crafts, collections and museums, plus a host of theatres for the performing arts.

## 3. PORTO, PORTUGAL

Located on the Iberian Peninsula, many parts of Porto were built with the aim of luring in foreign investment, so it makes sense that Lisbon's smaller sibling has an abundance of interest and charm.

From bridges to cathedrals, elegant gardens to wine tasting – the city is the birthplace of port wine – it's a smorgasbord of tastes and flavours.

## 4. CORK, IRELAND

The last port of call for the Titanic before it headed off across the Atlantic, Cork has a lot going for it, with a bustling market, friendly people, and a renowned food and drink scene.

Much more personal than Dublin, it introduces tourists to the rural delights of southern Ireland.

## 5. KOŠICE, SLOVAKIA

A modern city with an eco edge, Košice combines incredible architecture dating back centuries with a defined approach towards sustainability and the repurposing of old spaces for creative industry.

With a warm welcome and thriving arts scene, this is an inspirational place which transports visitors into a world that reflects the past while embracing the future.

# ISAs VS...

If you want to start saving, then you may be wondering where to put your hard-earned cash. Two of the most popular options are ISAs and savings accounts, but which one is best for you?

be saved each financial year and does not charge any tax on the interest you earn.

#### WHAT IS AN ISA?

ISA stands for individual savings account and offers a tax-efficient way to save money. There are four types of ISAs:

- Cash ISAs
- Stocks and shares ISAs
- Innovative finance ISAs
- Lifetime ISAs

The government sets a limit for how much can

#### WHAT IS A SAVINGS ACCOUNT?

A savings account offers a safe place to put aside your money and allows you to earn varying amounts of interest. Depending on your circumstances, you may have to pay tax on any interest earned.

There are several different types of savings accounts, including:

- Easy-access accounts
- Fixed-term accounts
- Regular savings accounts

ISA	Savings Account
Completely tax-free	Interest is taxed if you earn over £1,000 for basic tax earners and £500 for high tax earners per year
You can deposit up to £20,000 per year	No limits on deposits
Limited to opening one type of ISA per year	No limits on how many accounts you can open
Good for large amounts and long-term saving	Good for large amounts and long-term saving

#### SHOULD I OPEN AN ISA OR A SAVINGS ACCOUNT?

Before you decide whether to open an ISA or a savings account, you need to determine your needs and savings goals. Typically, you can earn more competitive interest rates on a savings account and, depending on the account, you may be able to both deposit and withdraw money. However, an ISA is a good choice if you want to protect yourself from paying tax on any interest earned.

# GUIDE TO BUYING A

# USED SCOOTER

Whether you are a first-time buyer or are seasoned in the world of scooters, a used one can save you a pretty penny.

Below are four questions you need to ask before buying a used scooter.

### 1 DOES IT RUN?

While this may seem like a no-brainer, before you buy a used scooter, you need to make sure that it actually runs. Once you have established that it does, the next step is to listen to how it sounds. Four-stroke engines should have a smooth hum, whereas two-stroke engines should sound like a gentle chainsaw, so make sure you listen out when you do a test drive.

### 2 HOW LONG HAS IT BEEN SITTING?

If you are purchasing a used scooter online, take a close look at the pictures. Does the scooter look

dusty or rusted? If yes, then it may have been sitting unused for a while. Make sure you check the battery and the tyres as both of these are likely to need replacing.

### 3 CAN YOU STILL GET SPARE PARTS FOR THE SCOOTER?

While you can still get spare parts for most scooters that have come out in the last decade, it is always worth checking before you sign on the dotted line. Don't forget to also be vigilant of scooters that are missing several body panels, as this can be a sign of a crash or that the scooter has been stolen.

### 4 WHO IS THE SELLER?

You can choose to buy a used scooter from either a dealership or a private seller. While there are advantages and disadvantages for each option, a dealership is a safer bet as you can find out about their reputation online and they are more likely to provide detailed checks on their scooters.

## UNUSUAL SPORT:

# Underwater Rugby

**HEARING THE RALLYING CRY OF 'SWIM LOW, SWEET CHARIOT', IT CAN ONLY BE AN INVITATION TO PLAY UNDERWATER RUGBY**

In 1961 in Cologne, Germany, a new variation on a hybrid sport containing elements of rugby and water polo was invented.

Named underwater rugby, for perhaps rather obvious reasons, the first championships took place some 17 years later, even though the sport's overseers were still unclear as to what the rules should be.

Ultimately, it was decided that there should be six players per side in the pool at any one time, with further substitutes from a total squad of 15 able to be made during the two 15-minute halves.

Most team formations comprise of two forwards, two backs and two goalkeepers or left-wingers, with the aim being to keep possession and score after outwitting the opposition through speed, skill and holding your breath.

The underwater rugby ball is plastic and filled with salt

water and the players have to score in steel goals which are located at the bottom of opposing ends of the pool. The pool dimensions have to be between 12m and 22m in length, 8m and 12m wide, and with a depth of 3.5-5m.

No kicking, hitting or strangling is allowed, but it's a contact sport so, within reason, anything else goes. Officials are present to judge possible offences, resulting in punishments such as warnings, free throws or two-minute penalties.

There were 18 countries involved at the last World Championships in 2019, where Colombia became the first non-Nordic nation to win a gold medal, beating two-time and defending champions Norway in the final in Graz, Austria.

Underwater rugby is said to be the only true 3D sport in the world in the way both the ball and the players can travel in three dimensions and in all directions – imagine, for instance, having a teammate 5m below you in a pool. For this reason, its popularity is exploding.
