# Editor's notes...

JUNE 2022

Nik Allen, Editor

Hello and welcome to this month's edition of **VISION** BrentwoodOngar.

Isn't it strange how a bit of sun can lift the spirits?

We seem to be entering the throes of summer now and for the first time in more than two years we are able to go out, restriction-free, and enjoy ourselves.

Of course, we do this against a backdrop of political unrest, economic uncertainty and conflict in various parts of the world. The year 2022 has brought about countless challenges and tests so far - just when we thought we'd arrested the biggest spectre of them all: COVID-19.

The truth is that the current ills around us will be there throughout the next few months and beyond, but my encouragement to you is to embrace the things that are within our control.

Not since the winter of 2019 have we been able to fully throw ourselves into visiting new places, socialising with friends and going about our personal projects in a manner that now seems exhilarating and limitless.

With longer days and - hopefully - warmer weather, now is the time to spend some time in your local pub garden, plan a day out with friends, and perhaps organise a barbecue or two.

So let's try to fully embrace the good elements in our lives and make the most of every opportunity that comes our way.

*Nik Allen*

# SPECULATE TO ACCUMULATE

**FROM FLAMETHROWERS TO SPACE ADVENTURE TO TWITTER, ELON MUSK CONTINUES TO REWRITE THE RULE BOOK**

---

He is a tech entrepreneur, an eco exemplar and an ambassador for how we might, as people, forge a future that combines function with fun. Despite all his innovation – with Tesla and SpaceX particularly, but also across other projects – Elon's is a name to which we have really only become accustomed in the last decade or so.

Tesla, the brand, was incorporated in 2003, yet even after seven years only 5,000 of its vehicles were on the road. The total is now 200 times that, with the two-millionth car set to roll out of the factory this summer.

While Musk – who dropped out of Stanford University after just two days – is most renowned for the electric car revolution that promises to define us as motorists across the next generation, his exploration of space through SpaceX, the space vehicle, rocket and communications business, is just as big an achievement.

However, in April, as if yielding the power over the way we explore the world geographically wasn't enough, Musk made perhaps his biggest move yet, reinforcing his icy grip on the digital world with a buyout of Twitter that now sees the 50 year old as an overarching power of social media. Not only is he putting his and investors' money – some \$44billion – behind the acquisition, he also intends to run it himself, which spells trouble for the current incumbents who have frequently been criticised for sidelining those whose political and social values don't fit.

His move to take over the controversial platform is a shot in the arm for free speech, in an era where the entrepreneur admits he has become tired of cancel culture.

While Twitter is arguably his biggest project yet, the South Africa-born entrepreneur has sought out countless other initiatives – from creating and selling his own computer game at age 12, to launching SolarCity, which grew to become the second-biggest provider of solar power systems in the US. Then there was Neuralink, his move into integrating the human brain with artificial intelligence; plus The Boring Company, which digs tunnel systems, and through which he manufactured and sold 2,000 novelty flamethrowers, as inspired by Mel Brooks in the 1987 movie *Spaceballs*. He has even released music in the rap and dance genres.

The fact that Musk is rapidly ascending to a personal fortune topping \$300billion is by virtue of an intense entrepreneurial mind that spreads opportunity and investment across a range of projects. His commitment to Tesla and SpaceX only came about because he'd sold previous start-up Zip2 to HP, and merged his X.com business with PayPal (which led to a payout of \$180million when the money operator was bought by eBay).

As a phrase, 'speculate to accumulate' has never seemed more apt than when applied to the journey taken by Elon Musk, and those supposing his dynamic sideways step into social media is the last piece of the jigsaw would probably do well to think again.

## HOW TO RECOGNISE IF YOUR DRINK HAS BEEN SPIKED AND HOW TO PREVENT IT FROM HAPPENING

When you go out, can you honestly say that you watch your drink at all times? Spiking is currently at high levels in the UK and can happen to anyone.

Find out how to recognise the signs of spiking and what to do if you think your drink has been spiked below.

2

**WHAT ARE THE MOST COMMONLY USED ILLEGAL DRUGS TO SPIKE DRINKS?**  
The most common illegal drugs to spike drinks are GHB, ketamine and benzodiazepines such as valium and rohypnol.

### HOW TO RECOGNISE IF A DRINK HAS BEEN SPIKED

1. It has a foggy appearance
2. It has excessive bubbles
3. The ice sinks to the bottom
4. A change in colour

3

It is important to know that some of the most regularly used drugs to spike drinks do not produce a smell or taste, meaning it can be difficult to know if your drink has been spiked until it is too late.

### THE MOST COMMON SYMPTOMS OF SOMEONE WHO HAS HAD THEIR DRINK SPIKED ARE...

Dizziness | Difficulty walking | Confusion the next day | Nausea or vomiting | Hallucinations | Tiredness | Blurred vision | Paranoia | Amnesia

4

### WHAT TO DO IF YOU THINK YOU'VE BEEN SPIKED

If you think your drink has been spiked, stop drinking it. Tell someone you trust as soon as possible as spiking substances can take effect very quickly. Be wary of asking strangers for help and instead, if you are alone, seek out security or venue staff. If you need urgent help, call 999 and tell them you think you may have been drugged.

### HOW TO PREVENT YOUR DRINK BEING SPIKED

- > Do not leave your drink unattended
- > Invest in anti-spiking lids from StopTopps, available from stoptopps.com
- > Do not accept drinks from strangers
- > Be vigilant of changes to your drink
- > Don't drink anyone else's drink.

### 5 ALTERNATIVE USES FOR

# DENTURE TABLETS

Denture tablets can be used to clean so much more than just your dentures. Discover five surprising uses for denture tablets below and you may be tempted to buy some – even if you have all your teeth.

**1. TO CLEAN YOUR KETTLE:** Mineral deposits can quickly build up in your kettle, which can cause your hot beverages to taste less than their best. To combat this, fill your kettle with water, drop in a denture tablet and allow to soak for a few hours. Follow with a good scrub and a thorough rinse.

**2. TO REMOVE HARD WATER STAINS:** If you are struggling to remove the hard water stains from your toilet bowl, then denture tablets offer the perfect solution. Simply drop in a few tablets, wait for the fizzing to stop and then scrub the bowl using your toilet brush.

**3. TO ELIMINATE BURNT FOOD FROM PANS:** For times when soaking just isn't enough, add a denture tablet to your sink or a bowl of warm water, drop in your pan and leave to soak for 15-20 minutes. Give the pan a gentle scrub and the burnt food should slide right off. Do not use denture tablets on cast-iron pans.

**4. TO RESTORE SHINE TO GLASSWARE:** If you find that your glasses often look cloudy after washing, then a denture tablet is all you need to restore them to their original glory. Fill the glass with water, drop in a denture tablet, wait for the fizzing to stop, and rinse.

**5. TO BANISH TOMATO STAINS:** If you batch cook or take leftovers for lunch, you will know how hard it is to remove tomato stains from plastic containers. Banish these stubborn stains for good by filling the container with water, dropping in a denture tablet and leaving to soak overnight. Come morning, all you need to do is rinse.

# GUIDE TO CLEANING PAINTED WALLS

There is nothing worse than noticing a dirty mark or stain on a freshly painted wall. Keep your painted walls looking fresh and fabulous for longer with our handy guide.

### HOW TO CLEAN PAINTED WALLS

1. Dust off any excess dirt using a lint-free cloth or a soft broom for hard-to-reach areas.
2. Fill a bucket with warm water and a gentle detergent.
3. Apply to the walls using a sponge mop or soft sponge.
4. Do not oversoak your sponge or mop as this can result in water stains.
5. Leave the solution for 10-15 minutes.
6. Rinse with clean water and a sponge or mop.
7. Dry by placing a microfibre cloth onto a flat-headed mop and gently rubbing over the wall.

### HOW TO CLEAN PAINTED KITCHEN WALLS

Painted walls in the kitchen are prone to grease. To combat this, apply a gentle degreaser to any affected areas before following the same steps as above.

### HOW TO SPOT CLEAN PAINTED WALLS

To get rid of small stains or marks on your painted walls, apply a mixture of water and baking soda or bicarbonate of soda to the affected area using a soft cloth or towel. Half a cup of baking soda or bicarb in a bucket of warm water will do the trick.

### HOW TO REMOVE OIL STAINS FROM PAINTED WALLS

1. Mix one cup of white wine vinegar into a bucket of warm water.
2. Soak a soft sponge and apply to the stain.
3. Rub gently until the stain has disappeared.
4. You do not need to rinse the area.

### WHAT NOT TO USE

You should not clean your painted walls with any cleaning products that contain alcohol or harsh chemicals, as these ingredients can break down your paint surfaces and leave your walls looking a mess.

# NO vacuuming ALLOWED

## A GUIDE TO HELP YOU DECIDE WHEN YOU SHOULDN'T USE YOUR VACUUM WHEN CLEANING

Some people love vacuuming; others can't stand it. Either way, there is no denying how quickly it can clean up your home. However, did you know that there are some items that you should never Hoover up?

### PIECES OF GLASS

If you have smashed a glass, then you may reach for your vacuum cleaner to quickly clear the area. However, large pieces of glass can puncture the bag, get stuck in the hose and damage the interior. Instead, use a dustpan and brush for the large pieces and a damp cloth to pick up small shards. Be sure to wear gloves to protect your hands.

### FINE DUST

Have you recently renovated your home? If yes, then your furniture is probably covered in dust particles. Sadly, you should not Hoover these up as sanding residue and other tiny particles will clog the filters and cause your Hoover to spit dust back into the air.

### WET FOOD

Wet food, or anything wet or moist, should not be cleaned up with a vacuum cleaner. This includes soggy cereal, dog food and even small spills. Instead, use some kitchen towels or a tea towel.

### SMALL METAL ITEMS

Small metal items such as paper clips and coins can easily become stuck in the rotating part of your vacuum cleaner and stop it from working properly. They can also sometimes break off plastic pieces from the interior of your appliance.

### MAKE-UP

Dropped an eyeshadow palette on the carpet? Or some foundation? Although you may be tempted to use your Hoover, this is not a good idea. Firstly, the vacuum brush could smear the make-up further into the carpet, and secondly, if you do manage to successfully clean it up, it is highly likely to melt once inside the appliance.

HOME & DIY

# MOVE OVER Midas!

Who doesn't love an Ikea hack? Enabling you to incorporate the latest designer trends into your home at a fraction of the price, we have fallen head over heels with gold leaf furniture.

### WHAT YOU NEED:

Imitation gold leaf | Sandpaper | Furniture primer | Water-based gilding size | A soft brush | A clear gloss spray sealer or permanent solvent-based varnish

### HOW TO APPLY GOLD LEAF TO FURNITURE:

#### Step 1: Prepare your furniture

For wooden furniture, sand down or fill in any bumps or holes so that you have a smooth surface to work with. Then apply your chosen primer to ensure it is not porous. If you are upcycling metal furniture, give the item a dust or clean it with soap and water.

#### Step 2: Apply water-based size to the area

Decide where you want to apply the gold leaf and section off this area with masking tape. Then apply a thin and even layer of water-based gilding size. This is the adhesive that will bond the gold leaf to your furniture. Leave this adhesive until it is nearly but not completely dry.

#### Step 3: Start adding your gold leaf

Your gold leaf should be backed by tissue so lay it tissue-side up and then gently rub the gold onto your furniture. Keep going until the area is completely covered. To avoid any gaps, you can overlap the squares of gold leaf slightly. Leave until fully dry. This can take up to six hours.

#### Step 4: Remove any excess gold leaf

Once the area is dry, take your soft brush and gently remove any excess gold leaf. You then need to leave your item for a further 24 hours so that the gold leaf can cure.

#### Step 5: Cover with a sealant

The final step is to cover the area with a sealant so that it is protected from chips and scratches. Leave this to dry for 24 hours, and then your gold leaf furniture project is complete.

**OUT OF MANCHESTER**  
STYLE AND A SMILE, WITH DESIGNER MATTHEW WILLIAMSON

HOME & DIY

Matthew Williamson, by his own admission, doesn't perhaps have a name that screams 'style, exuberance and panache', and considering this is someone who grew up in the murky confines of 1970s Manchester, there was no indication of the creative elevation that was to come. And yet, in art just as in physics, equal and opposite reactions can provoke explosions of inspiration from very simple ripples of provenance. That is certainly the case with Williamson, who for more than two decades now has specialised in the wonder of colour. He is an interior designer of great originality and acclaim, as his recent work with John Lewis determines. He is someone whose passion for colour, aesthetics and design was catalysed by his mother, but who has taken those principles to another level of optimism. "If you're going to use colour, you have to be an optimist," he says. "You have to look at the beauty

of contrast and the potency of the shades and tones you put together. "There is no point being afraid of trying things, and you should never enter a project imagining something isn't going to work. Only by trying will you know, and only through knowledge can you grow. "Of course, it's about mixing up tones, but also enabling a background to act as a template for the colour detail you want to layer on top." Replicating Williamson's colour-driven style of interior design is no easy task. It has, after all, taken the designer the best part of half a century to refine an interior design ethos that even he admits is still a work in progress. But the Central Saint Martins graduate insists the way to use colour is to follow your smile. "If it makes you happy, it's working. If it paints pictures and provokes memories and inspires in you ideas to move forward, then you probably have what is right."

# CHINTZ

*is making a comeback*

If you're a millennial or younger, you'd be forgiven for not knowing the word chintz. Often regarded as a dated decor trend, you'll be more likely to see it in your grandmother's house than on Instagram or Pinterest. But could chintz be making a comeback?

## WHAT IS CHINTZ?

Chintz has a very long and fascinating history. It's a cotton textile dating to 4,000 years ago, originating in the Indus Valley between India and Pakistan. Made using a specialist dye method, chintz fabrics typically feature colourful floral designs. As the fabrics were traded around the world, they soon found their way into home textiles, made popular in more recent times by designers such as William Morris.

## WHERE DID IT GO?

In more recent times, chintz was seen as a dated fabric, and it has been declining in popularity since the 1980s. IKEA caused a stir in the 1990s by encouraging people to "chuck out your chintz" in favour of its own interior products, based around simple details and block colours.

For a long time, neutrals have reigned supreme, but now chintz is starting to reappear. This time around, colours are bolder and brighter and patterns are even more lavish.

## BRINGING CHINTZ INTO YOUR HOME

There are a lot of great ways to bring chintz into your home, including:

- > Chintz sofas and upholstery add a contrasting detail to neutrals and solid colours
- > Curtains in floral patterns add a little romance to your space
- > Patterned chintz-inspired wallpaper can add some colour and character to a room, bringing fantasy and fun to a child's bedroom or creating a feature in a cloakroom or dining room
- > Invest in cushions, table linens and other accessories to add a subtle hint of chintz to any interior style.

Incorporating some chintz into your home brings a modern take on a classic style. Keep an eye out for chintz-inspired décor making its way to a homeware section near you.

# 40 years since the FALKLANDS WAR

A LOOK BACK ON THE FALKLANDS WAR, WHICH ENDED IN JUNE 1982

The commencement of the Falklands War, when Argentina landed on the small island situated 500 miles from its lower-east coast, represented more than simply a country looking to reclaim what it thought it rightfully owned.

On the face of it, that was Argentina's ploy. The Falklands, a modest 4,700 square miles, comprising little more than rocky terrain, cliffs, birdlife and cattle, had been appropriated by the British back in 1765.

Within five years, a Spanish commander from Buenos Aires landed with five ships and 1,400 troops to claim possession of the land. And that remained the case until 1883, when the British returned.

The constant power struggle has raged on, though when Argentina relit the blue and white striped touchpaper in 1982 with severe territorial aggression, it surprised many.

A deeper explanation, away from the geographical claims and disputes, lay in the political situation in Argentina, and the economic

struggles that besieged South America in the 1980s.

The three-man military junta that had assumed power in Argentina in 1976 had evolved over the years, and as it looked to build support and legitimacy by claiming a territory that still held considerable emotional ties to the Argentine people, seizing the Falklands was a clever political move.

On April 2, Argentina invaded, kicking off just over two months of conflict, where the British, led by Margaret Thatcher, responded with air, sea and land attacks. A series of bloody battles raged, with the Battle of Goose Green perhaps the most famous.

Finally, on June 14, Argentina surrendered after British troops yomped across punishing terrain, arriving at East Falkland to find their enemy waving white flags.

While conflict ceased, the ongoing antagonisation between Argentina and the UK (and England in particular) has continued, mostly in sporting rivalries.

## Man jailed for 23 years for attempted murder of child

A man has been jailed for 23 years after he admitted the attempted murder of a child in Brentwood.

Zach Hughes (pictured left), 27, of Brentwood Road, Romford, was sentenced at Basildon Crown Court on May 6 after being found guilty of attempted murder, causing grievous bodily harm with intent, and possession of an offensive weapon in a public place.

On July 12, 2021, Hughes met up with his victims and another person before they travelled to Brentwood.

As the car was being parked in Brook Street, Hughes went to the rear of the car. He reached inside

and attacked the young child and a woman. They were treated at the scene by paramedics and taken to hospital.

Hughes was arrested the following day and charged. He later pleaded guilty to all three charges.

Detective Inspector Brian Palombella, of Essex Police's Crime and Public Protection Command, said: "I would like to offer my sincere thanks to the first responders and members of the public whose actions were vital in what were traumatising circumstances, and the sentencing reflects that impact."

## Have your say on proposed power line plans

Residents have until June 16 to have their say on a high-voltage power line which could run through Brentwood.

The route for the National Grid's proposed 400kV power line to transfer electricity generated by nuclear and wind passes through land earmarked for Dunton

Hills Garden Village in Brentwood.

Brentwood Borough Council is currently reviewing the proposals.

To comment on the plans, search 'consultation' on [www.nationalgrid.com](http://www.nationalgrid.com)

The Brentwood Realtor      Your REAL Estate Agent For Life!

Hello, I am Peter Garland-Collins and I am delighted to bring you my monthly, property column, focussing mainly on Brentwood and the surrounding areas.

I hope you enjoyed the Platinum Jubilee, celebrating 70 years of 'The Queen' on the throne. Did you know in 1952 the average cost of a new house in Brentwood was £1,891 (around £65,224 in today's money) and the average salary was £10 a week (roughly £339), so buying a property was no mean feat, even then.

Bringing things back to the present day, the rate of inflation is currently at the highest rate for 40 years! The Bank of England has warned inflation might reach 10% within months, as the prices of fuel and food put pressure on household budgets.

If you would like to know what this could do to the value of your home then please feel free to get in touch to discuss.

The Brentwood housing market still remains pretty buoyant and with the long awaited launch of Crossrail last month, we estimate another surge of buyers from London looking to discover our wonderful community.

# BURGHART for BRENTWOOD

Alex Burghart MP for Brentwood and Ongar

LOCAL NEWS BRENTWOOD

Slowly but surely, I am hearing about more families from Ukraine arriving in Brentwood to live with people here who have offered up their spare rooms and homes to those fleeing the horrors of war.

There has been plenty of news coverage of long waits for the Home Office to process visas and provide the 'permission to travel letters' which are needed to allow safe passage of people from Ukraine, or from temporary accommodation in Poland or Romania.

Essex County Council has responsibility for coordinating applications made through the Homes for Ukraine Scheme. So far, 1,788 individuals have applied to come to homes in Essex. Each sponsor household has to be carefully checked by the council before the placement can be agreed and the visas issued.

In the first two months, 30 per cent of those who have applied to come to Essex have arrived, and more visas are being issued each week. Missing documents or travelling with young children can cause delays to individual applications, but the Home Office is stepping up to the plate and ministers are working

exceptionally hard to deal with each and every glitch and bump in the system.

I am being contacted daily by constituents asking for information about 'their' families, and I am passing on as much as I can find out each week. But then more emails arrive – thanking me and my team for our assistance, and attaching pictures of smiling sponsors and guests settling into their new homes after such intense disruption to their lives.

If you're a sponsor and need further advice and assistance for your guests, Essex County Council has some excellent resources on its website in English and Ukrainian at [www.essex.gov.uk/news/welcome-to-essex-information-materials-for-guests](http://www.essex.gov.uk/news/welcome-to-essex-information-materials-for-guests) and [www.essex.gov.uk/information-for-sponsors-welcoming-a-ukrainian-person-or-family](http://www.essex.gov.uk/information-for-sponsors-welcoming-a-ukrainian-person-or-family)

I am very proud of what we are doing in Brentwood and Ongar to welcome so many people from Ukraine, and I look forward to meeting some of them when they arrive.

# Band set for successful future

A band from Brentwood have been tipped for big things after their newly released single received rave reviews.

Ocean Flaws are an indie band made up of Sean Heaney on guitar and keyboard, Hamish Monk on vocals and guitar, Alex Pattle on drums and Callum Quirk on vocals and bass.

Their latest single, a feel-good indie pop number called *Keep It Cool*, has received national coverage on both Radio X and BBC Introducing.

Reviewers at the It's All Indie website were so impressed that they tipped the Brentwood band "to headline the likes of Reading and Leeds in the next five years".

Fans of the band will be able to watch them perform at The Shacklewell Arms in Dalston on Friday, June 17. For tickets, search 'Ocean Flaws' on dice.fm

## Record number of venues join in art trail

LOCAL NEWS BRENTWOOD

A record number of venues have signed up to join in with this year's Brentwood Art Trail.

A total of 43 artists will have their work displayed, and 45 locations will be transformed into pop-up art galleries as part of the event, which is sponsored by the Brentwood Business Partnership and will run from June 4 to 26.

The artwork will be hosted in cafés, offices and shops throughout the town.

One of the shops involved in the event for the first time is Brentwood Beigels.

Owner Jackie Wells said: "We're thrilled to be taking part in the Brentwood Art Trail for the first time this year. An event like this, which brings the community together and supports local businesses, is exactly the type of initiative we like to get involved in."

Local artist Lucia Hardy said: "This is my second time exhibiting at the Brentwood Art Trail, and it's an event I love being involved in. Having the opportunity to display my art, talk about it with local people and host a creative event within my community is really exciting."

Guided tours, hosted by exhibiting artist Julia Austin-Brenes, will take place in Brentwood on Thursday, June 9, and Saturday, June 11.

All events can be booked via the event website at [www.brentwoodarttrail.co.uk](http://www.brentwoodarttrail.co.uk)

## Businesses set to promote sustainability across town

Brentwood residents and business owners are invited to get involved in the Brentwood Environmental Business Alliance (BEBA).

BEBA, which launched in October 2021, aims to encourage more sustainable and environmentally friendly practices by providing a platform to collaborate, learn and identify resources for businesses.

BEBA is all about sharing the everyday things that businesses in and around Brentwood can do to help the planet.

The platform will promote a variety of different strategies which will help to reduce carbon emissions and protect the environment in the local area.

Throughout June, BEBA will be hosting a variety of workshops, including litter picking and weeding events, all with the aim of getting people actively involved in environmental projects.

## Queen makes surprise visit to opening of new Tube line

Her Majesty The Queen made a surprise visit last month to open the new Elizabeth line, which will connect Brentwood with the London Underground for the very first time.

Joined by youngest son Prince Edward, the Earl of Wessex, at Paddington Station, the Queen and the Earl met with attendees and spoke with staff who are operating the new railway, which opened to the public on May 24.

The Earl also enjoyed a quick trip on the line, which stretches more than 60 miles and required eight tunnel boring machines to excavate more than three million tonnes of earth for construction.

The new line will run all the way from Reading to Shenfield in its fully completed state, but for now it is split in two, with the Paddington route going to both Reading and Heathrow Airport, and the second half going from Liverpool Street to Shenfield.

The Crossrail project has proven a controversial development, especially in recent years, owing to delays and the project going severely over budget, mainly caused by construction difficulties.

## News from THE ROTARY CLUB

Brentwood

The Rotary Club of Brentwood was pleased to be able to join with members of Brentwood à Becket Rotary Club to mount our campaign to raise money for Humanitarian Aid in Ukraine. Supported by Brentwood Borough Council (BBC), we quickly obtained licences for collections in the High Street, began our Facebook campaign and erected our trusty gazebo. Working with a number of volunteers from the clubs and Friends of Rotary, we covered three shifts a day and, with online and face-to-face collections, raised £4,800.

On April 29, our president, Ian Kirby (pictured second from left), climbed the main mast of the Cutty Sark, with all funds going to support the Ukraine appeal. Ian alone added another £800 for his climb. To date, we have raised £8,100.

Now refugees are starting to arrive in Brentwood, we are putting together a project to support them.

We hope to create a hub where refugees and their supporters will be able to meet once a week to develop their conversational skills and to provide guidance. We will be developing this in conjunction with Brentwood Cathedral and BBC.

## Anti-crime campaign launched

Essex Police are supporting a grandmother in her campaign against knife crime, following her visit to a bar in Brentwood to give them a special bleed-control kit.

Julie Taylor's grandson, Liam, 19, died after being stabbed in Writtle in January 2020. Three men were jailed for a total of 58-and-a-half years for his murder.

She set up The Liam Taylor Legacy in his memory, pledging to raise money to purchase bleed-control kits for the community.

During the countywide knife amnesty last month, Julie (pictured centre) visited the CKN Bar & Kitchen in King's Road, Brentwood, to present staff with one of the

special kits, which contain tourniquets, bandages and chest seals to stop catastrophic bleeding as a result of a knife wound, gunshot wound or road traffic collision.

Sergeant James Bugden, of the Brentwood Local Policing Team, said: "Although we hope these kits will never have to be used, there is no doubt they will help to save lives if they are."

Julie works tirelessly to help distribute the bleed-control kits, which are funded by the Daniel Baird Foundation, set up by Daniel's mother, Lynne, after his fatal stabbing in Birmingham in July 2017.

## Businesses join partnership to support hospice

Ongar businesses have joined a new partnership to show their support for a local hospice.

Laurelo, a probate specialist, and Ongar Dairy have joined St Clare Hospice Corporate Partnership Network (CPN), with the first-ever meeting taking place on April 28.

The partnership brings local businesses together with the aim of networking, team-building and supporting St Clare Hospice to continue to provide specialist care for local people.

Charlotte Durham, corporate fundraiser at St Clare, said: "We are excited to officially launch our CPN.

"It was a wonderful evening, meeting new businesses and catching up with some of our founding members.

"The CPN is our way of thanking and supporting local businesses, in return for their support for St Clare Hospice."

Chris Rudge, from Ongar Dairy, said: "It was great to finally meet Charlotte Durham from the hospice in person.

"It was our first networking event since COVID-19 and reminded us of how nice it is to meet with like-minded local businesses, while also supporting a great local hospice."

The next meeting will take place on July 1 at Redchurch Brewery in Harlow.

Any businesses interested in joining the partnership should contact Charlotte on 01279 773753 or charlotte.durham@stclarehospice.org.uk

## Two men to face trial after robbery at Olympian's home

Following on from the April 2022 edition of **VISION**BrentwoodOngar, in which we reported that two men had been charged for a robbery at the Ongar home of Olympic and Tour de France cyclist, Mark Cavendish, two men are to face trial.

Romario Henry, 31, and Oludewa Okorosobo, 28, pleaded not guilty to two counts of robbery at Chelmsford Crown Court on May 6.

They are due to face trial on October 3. A third defendant, 27-year-old Ali Sesay, was not asked to enter pleas to the two charges.

The break-in happened at 2.35am on November 27, 2021.

Essex Police said no one sustained serious injuries during the raid but the famous cyclist said in a statement that his family "feared for their lives".

## Councillors re-elected to district council

An Ongar county councillor has praised his local counterparts who have been re-elected to Epping Forest District Council (EFDC).

Councillor Jaymey Mclvor (pictured left), who represents Ongar and Rural on Essex County Council, has congratulated councillors Basil Vaz (pictured second from right) and Peter Bolton (pictured centre) for being re-elected to EFDC after residents went to the polls on May 5.

Cllr Vaz will continue to represent Chipping Ongar, Greensted and Marden Ash ward after winning 562 votes, almost four times as many as the Labour candidate who came second.

Meanwhile, cllr Bolton kept his position in the North Weald ward after winning 635 votes, almost three times as many as the next candidate.

Cllr Vaz's ward falls within cllr Mclvor's county council division, while cllr Bolton is a North Weald district councillor alongside councillor Mclvor.

Cllr Mclvor said: "Ongar and North Weald wisely chose to re-elect their hard-working local councillors, whom I am proud to work alongside.

"I would like to thank them both for engaging with residents throughout the campaign and congratulate their agents who assisted them in securing great election results.

"I look forward to continuing to work with such dedicated and experienced councillors and learning a lot from them."

# ALL ABOARD FOR 5G

THE BRITISH GOVERNMENT IS ACCELERATING THE ROLL-OUT OF 5G TECHNOLOGY...  
COMING TO A BUS SHELTER NEAR YOU

Take a look at your mobile phone and, if you're in one of the UK's bigger towns or cities at the time, you may see the 5G symbol in the top-right corner (providing you have an up-to-date 5G-enabled phone, that is). This form of telecommunication technology that, at its peak, is 100 times faster than 4G, its rapidly ageing brother, has the capability to completely transform our interconnectivity.

The issue with 5G is that while speeds are seriously impressive, range is not. This is down to the use of millimetre waves, which are a lot shorter than the wavelengths 4G uses.

As a result, the government has been rapidly releasing licences whereby buildings and facilities can be equipped with kit that will boost 5G connectivity.

The good news is that these 'cell sites' can be put up easily and, in most cases, you won't even

know they're there. From streetlights to signposts, bus shelters to CCTV poles, the government has slashed the red tape associated with the roll-out of the project. This is good news for us all – meaning easier installation, quicker connecting of new areas and faster speeds.

In simple usage terms – messaging, checking football scores and so on – you may not notice much difference, but for tasks that used to take hours, such as downloading a HD movie to your phone, the difference is astonishing. A recent survey by Uswitch found that Haul Fryn, a road in Swansea, South Wales, had the fastest download speed of anywhere in the country – 882Mbps, meaning a two-hour HD movie could be downloaded in just 47 seconds.

For years, the internet has meant the world is at our fingertips. With accelerated roll-out of 5G technology, it now feels even closer than that.

OUR QUEEN

*Perfectly Platinum*

## CELEBRATING THE QUEEN'S PLATINUM JUBILEE

Few would dispute the notion that Queen Elizabeth II is our most impressive monarch ever. She has presided not just over seven decades of exemplary rule, but also across a social and cultural timeframe in which so much has changed and evolved. This summer's Platinum Jubilee is not only a celebration of Her Majesty's time at the top table of British society, but also recognition of a job that's been done impeccably.

Even in the last year, in the wake of the passing of her husband Prince Philip, the scandal involving son Prince Andrew, and the turning of public opinion against her grandson Prince Harry, Queen Elizabeth, now aged 96, has presided over her nation with faultless grace and dignity.

And while the Queen still values her privacy, she respects too the need to be visible and approachable, and perhaps this relatability is what makes her so endearing, so popular and so special.

It was way back in February 1952 that the death of Elizabeth's father, King George VI, triggered her accession to the throne. The Platinum Jubilee marks the 70 years she has served the United Kingdom, and 70 years from when, upon her coronation, she declared herself fully at the service of the nation she served.

She said, in that characteristic crisp and measured voice: "I declare before you all that my whole life, whether it be long or short, shall be devoted to your service and the service of our great imperial family to which we all belong."

---

*“I declare before you all that my whole life, whether it be long or short, shall be devoted to your service and the service of our great imperial family to which we all belong.”*

---

Taking strength from those around her, the Queen has never professed to have all the answers. She has admitted that trial and error has often been the way forward, and that sense of humility permeates right up to the present day. "I know of no single formula for success," she said, "but over the years I have observed that some attributes of leadership are universal and are often about finding ways of encouraging people to combine their efforts, their talents, their insights, their enthusiasm and their inspiration to work together."

Certainly she has excelled in that, with the Platinum Jubilee, beginning on Thursday, June 2, stretching across a weekend of celebrations. Queen Elizabeth II, family, friends and the nation will look back over seven decades of exemplary rule, and forward to the future.

From Trooping the Colour, which marks the Queen's birthday celebrations with more than 1,400 parading soldiers, 200 horses and 400 musicians, to the traditional RAF fly-past, the 1,500 Platinum Jubilee beacons that have been distributed across the UK in a tradition that dates right the way back to 1897, to a thanksgiving service on Friday, June 3, at St Paul's Cathedral, to The Derby at Epsom Downs, the events over Elizabeth's special weekend are as memorable as the thousands of others held during her years on the throne.

And yet the Platinum Jubilee is about much more than just Queen Elizabeth II. It is an opportunity for people across the UK to share in what it means to have a strong, proud, resilient monarch, particularly in an era where so much around us feels restricted or under threat.

With communities encouraged to head into their streets to mark celebrations of the seven-decade reign in their own special way, the Platinum Jubilee is a universal event that celebrates not just the Queen, not just royalty, but also the people of this country.

# Cloudy2Clear, A Local Service With A Smile.

Established for over 16 years, Cloudy2Clear windows have become the UK's leading company for domestic glass replacement. Customers are no longer needing to risk their windows by using the dreaded double glazing cowboy down the road, instead, now they can join over 320,000 happy customers and have their glass replaced in an affordable and ethical manner. Remember, a failed glass unit may no longer provide you with the protection you need or be energy efficient. Why not spend a few minutes checking your home to see if you have any failed double glazing? If you act now you can avoid any future costly problems.

values have been held dear for a number of years. Since starting the business some years ago Cloudy2Clear have remained true to their core values of supporting the local community by providing a service that saves the public money.

The Cloudy2Clear service only requires the glass to be replaced and not the whole window once the unit has failed. Chris commented "Cloudy2Clear were able to assist our community through the last financial crisis in 2008 due to the savings that can be made in using our service. Unfortunately we might be going through something similar again soon and the public can rest assured that we will be there to help once again".

“ All C2C employees operate a strict social distancing policy. ”

When talking to the Manager of Cloudy2Clear windows Chris Miller it became clear that these

Love Your Home - Protect Your Windows - Save Money

# Create your own outdoor CINEMA

There's no better way to spend a warm summer evening than watching a film under the stars. Outdoor cinemas have become very popular in recent years, and with just a few simple steps, you could build one in your own garden.

Get ready to make those summer nights even better with your own outdoor cinema.

### CHOOSE THE RIGHT SPOT

First, you'll need to find the perfect spot for your cinema. You'll want somewhere that's dry, preferably flat, and where you can easily set up your screen.

### BUY A PROJECTOR, SCREEN AND OTHER ESSENTIALS

Find a projector that fits your budget. Anything over 3,000 lumens is ideal for being able to see a film in bright conditions. There are a lot of budget projectors that produce a high-quality image that's ideal for home theatre use. You may also need to invest in a screen (or a white bedsheet) and some speakers or headphones.

### GET YOUR KIT SET UP

Get everything connected and ready. You'll need to choose how you're connecting your projector, whether that be wireless, Bluetooth or via a game console/DVD player.

### CREATE A COMFY SETUP

Make your setup nice and cosy with plenty of cushions and blankets. Use your garden furniture, deckchairs or even outdoor beanbags. Cushions from your garden furniture also make excellent seating if you fancy perching on the ground. You might want hot water bottles to hand to keep you warm if things get a little chilly.

### GET YOUR SNACKS READY

Finally, get your snacks ready. Popcorn and sweets are a classic, or you could opt for nachos, burgers, hot dogs or pizza for something a little more filling.

An outdoor cinema is the perfect addition to any garden, providing night after night of entertainment in the comfort of your own home.

GARDENING

Even during the warmest months of the year in the UK, the evenings can get a little chilly. Fortunately, you can still enjoy your outdoor space after sunset with an outdoor heating source.

### WHAT IS A PATIO HEATER?

In its simplest form, a patio heater is a device that allows you to heat the patio area of your home. Some patio heaters run on electricity, whereas others burn wood, gas or butane. Patio heaters are designed for outdoor use, and you can find many different types to suit your space.

### WHAT IS A FIRE PIT?

Fire pits, just like patio heaters, are designed to keep you warm in your outdoor space. Some fire pits use wood, coal or propane as their heat source, whereas others have an electronic ignition to light the fire. There are many different shapes, sizes and styles of fire pits available.

### PROS OF PATIO HEATERS

Versatile – can be used for home or commercial use | Good temperature control | Safe for children

and pets | No embers or sparks | Low maintenance | Easy to move | Some approved for tent/garage use

### CONS OF PATIO HEATERS

Limited design choices | Require fuel or a power source | Cords can create a trip hazard | Propane is expensive | Not a significant light source

### PROS OF FIRE PITS

Lots of design options | Provide both warmth and light | Have roasting capabilities | Easy to move | Less messy than a campfire

### CONS OF FIRE PITS

Danger of sparks or embers | Limited heat range and temperature control | Open flames | Cannot be used indoors

### WHICH IS BETTER?

Both patio heaters and fire pits offer a great way to heat your garden. The former is a good option for those who can't have an open fire for safety reasons or if you don't like cleaning. The latter can be more economical and can also double up as a barbecue.

**AS THE WEATHER HEATS UP, MAKE SURE YOU DO YOUR BIT FOR LOCAL WILDLIFE**

The temperature is hotting up, and while most of us welcome these sunnier days, the same isn't always true for our community critters. The good news is that there are a lot of things you can do for wildlife in the hot weather to help keep them safe from the sun.

**Fill up your feeder:** Birds can find it tough to find food when the ground is dry and worms are scarce. Keep your bird feeder topped up and put out some fruit, such as apples and soaked raisins, for animals on the ground.

**Create shaded spots:** Animals may struggle to find shade on a hot day, but you can help by putting logs, large rocks or wooden planks around your garden to help create shade.

**Keep your pond topped up:** Remember to keep an eye on your pond and top it up if needed. This will help any fish that you have, as well as other visitors who use your pond as a water source.

These simple steps will make a big difference to your local wildlife.

**Provide fresh water:** Spells without rain can mean that a lot of natural water sources have dried up for your garden visitors. Putting out some fresh water will help thirsty animals and insects. Keep it shallow and put some rocks in there to help insects get out if they fall in.

**Put in a bird bath:** A bird bath is a great way for birds to keep clean and cool. You can buy them at garden centres and other retailers, or you could make your own as a fun DIY project.

It's too hot

TRAVEL

## Your guide to the best SMALL TOWNS IN ENGLAND

When it comes to exploring England, you probably think of taking in the big cities like London, Manchester and Liverpool. But the truth is, there are a lot of great towns in England that are worth your time.

Here's your guide to the best small towns in England.

Windsor Castle

### Windsor, Berkshire

It may be home to The Queen, but Windsor is still considered a small town. You can explore the beautiful streets in the main part of the town, or travel a little further to enjoy Legoland.

Windsor Castle should be at the top of your must-visit list, as well as St George's Chapel.

Castle Combe

### Castle Combe, Wiltshire

The Cotswolds is full of many gems, but not all have the honour of being dubbed 'the prettiest town in England'. Castle Combe offers plenty to do, including some beautiful walks where you can spot familiar settings from movies such as *War Horse*, *Downton Abbey* and *Stardust*. Many of the homes put out fresh produce in honesty boxes, which are worth visiting to collect goods for a picnic in the countryside.

St Nectan's Glen

### Tintagel, Cornwall

Tintagel is found on Cornwall's Atlantic coast, an incredible town with a lot to offer.

A hike to St Nectan's Glen – which has been voted an area of outstanding natural beauty – will take you to the stunning 60-foot waterfall.

Explore different tea rooms, pasty shops, cafés and more to soak up everything Tintagel has to offer.

Chatsworth House

### Bakewell, Derbyshire

Bakewell is a charming town that is famous for the Bakewell tart, but it's the scenery that will really resonate with you. It has some beautiful locations, as well as plenty of pubs to dine in and have a quiet and relaxing drink.

While you're in Bakewell, be sure to visit Chatsworth House, the filming location for many period dramas, including *Pride and Prejudice* and *The Duchess*.

Next time you're looking to plan a day out, consider one of these fabulous small towns. There are so many great spots to explore in England, so be sure to find out what's out there and make the most of this incredible country.

MOTORING

# CLEAN YOUR CAR like a pro

THERE IS NOTHING LIKE THE LOOK OF A CLEAN CAR. HOWEVER, IT TAKES MORE THAN JUST A BUCKET OF WATER AND AN OLD RAG TO ACHIEVE A SHOWROOM FINISH

### Always carry out a pre-wash

This is one of the most important tricks of the trade – any professional car washer worth their salt will remove as much dirt as possible using a hose or jet wash before they start to use their hands to clean a vehicle. This is because both dirt and grime can drag along the exterior and damage the paintwork.

### Use multiple buckets

You should always have two buckets to hand, one that contains your washing solution (ideally you should use car shampoo) and one filled with water for rinsing. It is also advisable to use a grit guard to catch the dirt.

### Invest in a wash mitt

Although you can use a large sponge and still achieve a good finish, if you want optimum results,

you need to invest in a wash mitt. Typically made from lamb's wool or microfibre, these are much less likely to leave surface scratches as the deep and fluffy fabric absorbs the dirt better than a sponge.

### Do not leave to dry naturally

Never leave your car to dry naturally. Instead, use a purpose-built blower, or even a leaf blower, or a triple-layered microfibre cloth to dry your car.

### Avoid extreme heat and direct sunlight

Although you may think that the ideal time to wash your car is when the sun is shining, this is actually not the case. Not only will you have to work harder and faster as your car will dry quicker than normal, but extreme heat can affect the strength of the chemicals in the products you are using. Instead, wash early in the morning or after 5pm.

# Local News Splash!

Local lady, Maria Gray has recently taken the exciting step to launch swim school Puddle Ducks Chelmsford and North East London, providing swimming lessons for babies, toddlers, and pre-school children up to the age of four.

Mum of three, Maria has lived in the local area for most of her life and prior to Puddle Ducks had a successful career as a school teacher.

Maria's love for swimming blossomed at a young age and she represented her borough by age 11!

Maria commented: "I absolutely love swimming and my early experiences led me to want to set up a swim school that was child-led and provided a safe and reassuring environment to learn to swim. When I found Puddle Ducks I fell in love with the ethos, the environment, and the team, I just knew it was a business I wanted to be part of. I was delighted when I got the chance to open my own Puddle Ducks franchise.

"Demand is really high for lessons because children need to catch up for lost time. I'm so excited to get started with lessons in my local area, supporting families and their children in sharing my passion for swimming and learning a skill for life!"

As well as running lessons for babies and children up to 4 years old at The Caterham School in Ilford and The Boswells School in Chelmsford, Maria has recently launched lessons at The Spirit Health Club at The Holiday Inn in Brentwood.

► Great white sharks are partially warm-blooded, meaning they can move faster when hunting prey.

► Less than 10 per cent of whale sharks are thought to survive to adulthood, but those who do can live up to 150 years old.

► The Antarctic blue whale is the largest animal on the planet.

► Humpback whales in the Southern Hemisphere don't eat for much of the year. They live off fat reserves for around five-and-a-half to seven-and-a-half months each year as they migrate.

## HOW TO SET UP A FRESHWATER FISH TANK

Thinking about adding an aquarium to your home? Bringing beautiful colours and life to your surroundings, as well as a whole host of health benefits, discover how to set up a freshwater fish tank for maximum wow factor.

### 1. CHOOSE AN AQUARIUM

Think about the amount of space you have, the type of fish you want to get and your budget. Large aquariums are more stable and require less work to maintain, whereas smaller ones need more attention. Wide aquariums are ideal for active fish such as danios, and narrow ones are better suited to less active fish such as angelfish and gouramis.

### 2. PICK THE RIGHT SPOT

When it comes to where to place your new aquarium, you need a spot where you spend a lot of time so that you can get as much enjoyment from it as possible. Avoid windows that receive direct sunlight and areas near exterior doors which can be too cold.

### 3. ADD DECORATIONS

Obviously, gravel and water are essential for your freshwater tank, but there are lots of other decorative features that you can add. Some of the most popular additions include live and artificial plants, rockwork, sunken ships, castles and figures. Taller plants and décor items should be placed at the back to hide filter tubes and cords, with smaller items at the front. You can also add background material to hide hoses and add visual depth to your display.

### 4. USE A TEST KIT

Test kits are recommended for new aquariums as nitrite and ammonia levels can rise and become hazardous. You can buy these online or at most aquatic centres.

### BEST FISH FOR BEGINNERS:

Danio | Guppy | Platy | Tetra  
Avoid mollies as these fish are prone to disease and hard to keep alive for beginners.

# A star in the making

## THE BEST WAY TO START OFF – AND STICK TO – A REWARDS CHART WITH YOUR KIDS

Most parents have tried to use rewards charts – you know, that large piece of card or app-based drive towards making your children nicer to be around... and your home a tidier place. The reason many charts fail is because, while the concept is great, the complications, complexities and conversations surrounding what tasks have or haven't been done, and to what standard, make managing charts more of a chore than the jobs listed on them. While rewards charts are available in plentiful supply from shops and online, it's sometimes more fun to make one up yourself – you can then tailor it to your own family, working in hobbies, treats and experiences unique to you.

## Six ways to ensure you can make a rewards chart stick!

- 1** **KEEP TASKS SIMPLE**  
 Ensuring jobs are straightforward and achievable will mean kids maintain focus when they need to.
- 2** **UPDATE AFTER EVERY TASK**  
 If possible, apply stars every time your little ones complete a challenge. This direct and very visual reward mechanism will keep them striving for more.
- 3** **KEEP REWARDS REGULAR AND TANGIBLE**  
 Using quick-fire rewards – rather than offering to contribute small additions to a bigger project – means kids will remain engaged and interested.
- 4** **RESTART EVERY WEEK**  
 Make every week a clean slate, where both completed and unfulfilled tasks are wiped away, meaning a new set of challenges – and rewards – awaits.
- 5** **ENCOURAGE TEAMWORK**  
 If you have more than one child, pool tasks so that they become responsible for and beneficiaries of each other's successes.
- 6** **MOVE ON EVENTUALLY**  
 While the rewards chart is a great way to motivate kids, it may lose its appeal over time, so progress the ideas behind it to tasks that offer greater responsibility and bigger rewards for your youngsters.

**BORG AND MCENROE**

Each month we look at one of the most significant events in British sporting history. This month, it's the epic encounter between Björn Borg and John McEnroe at Wimbledon on July 5, 1980.

The Championships at Wimbledon have provided countless dramatic sporting memories over the years, and none more special than when British heroes of the ilk of Ann Jones and Andy Murray have lifted the coveted trophy.

Yet perhaps the most remarkable encounter – certainly for sheer blood, guts, aggression and an unrelenting desire for victory – came in 1980 when a Swede faced an American.

Björn Borg had long been painted as the iceman, a Scandinavian purveyor of perfect tennis who was clinical and elegant in his despatching of opponents. John McEnroe, meanwhile, was the sweaty, unkempt brat of the game, with a confrontational,

aggressive game and a temperament to match.

That they collided so spectacularly on that sunny Saturday afternoon on July 5 will go down in SW19 folklore. McEnroe gained the upper hand by winning the opening exchange 6-1, before Borg fought back with 7-5 and 6-3 sets, giving him a 2-1 lead.

Looking to close out the match in the fourth set, Borg had five Championship points in an epic that went well past any reasonably expected distance. Finally, in the 34th game of the set, McEnroe broke the reigning champion – who was looking to win a fifth successive title – and took it 18-16.

Even in the deciding set, the duelling athletes made it to 6-6, though this time Borg broke McEnroe's steely serve, and his resolve, to take the set 8-6, and with it the Wimbledon title.

The epic was recently relived in a 2017 biopic, *Borg vs McEnroe*, starring Shia LaBeouf and Sverrir Gudnason.

## DIEGO MARADONA'S ICONIC HAND OF GOD SHIRT SELLS AT AUCTION

When England midfielder Steve Hodge swapped shirts with Argentina double-goalscorer Diego Maradona at the end of the World Cup quarter-final at the Estadio Azteca in Mexico in 1986, he was derided by fans, sections of the press and even his own teammates.

The Argentine wizard had just knocked the Three Lions out of the World Cup with a Jekyll and Hyde display of sporting brilliance and brazen opportunism – one of the best goals ever scored at a World Cup, coming minutes after the Hand of God goal that we've all seen replayed hundreds of times.

In swapping shirts, to some, Hodge crossed the line. Wind forward three-and-a-half decades, and Hodge has the last laugh, after that prized number 10 shirt recently sold at auction for more than £7.1million.

Perhaps one of the most iconic items of sporting memorabilia – the value of which soared after Maradona's death in November 2020 – the shirt made almost twice its guide price, and was sold to someone from Abu Dhabi with links to Manchester City.

The Sotheby's auction process had all the usual twists and turns befitting of Maradona's life. In the lead-up to its sale, the infamous star's family insisted that the shirt was a fake, supposing that the striker swapped shirts at half-time during the game on June 22, 1986, and that Hodge was in fact in possession of the shirt worn in the first half.

In addition, a late plea materialised from an Argentinian delegation for the shirt to be returned to South America. The group failed with its own bid as the auction price rocketed, though the request remains to display the shirt in Buenos Aires in October, for what would have been Maradona's 62nd birthday.

The sale price mirrors the previous record for any sports memorabilia – the original autographed manuscript of the Olympic Manifesto from 1892, sold by Sotheby's in December 2019.

# 5 DISTURBING FACTS ABOUT *drowning*

To raise awareness of Drowning Prevention Week, which takes place between June 18 and 25 this year, we have collated five disturbing facts about drowning that you should be aware of.

## 1. YOU CAN DROWN IN AS LITTLE AS 30ML OF LIQUID

Although most people associate drowning with large bodies of water such as swimming pools and the sea, you can drown in as little as 30ml of liquid. There are reported cases of people, particularly children, drowning in buckets, toilets and even puddles.

## 2. PEOPLE WHO ARE DROWNING WON'T SHOUT AND WAVE THEIR ARMS

When people are drowning in films, they tend to be shouting for help and waving their arms in the air to attract attention. Sadly, when someone is drowning, this is not physically possible. The body goes into survival mode and prioritises breathing over all other actions.

## 3. MOST DROWNING DEATHS OCCUR WHEN SOMEONE IS INTOXICATED

As many as 70 per cent of deaths caused by drowning in adults and adolescents involve the use of alcohol. When you are intoxicated, your judgement, balance and motor skills all become impaired, which puts you at much greater risk of drowning.

## 4. YOU DROWN DIFFERENTLY IN FRESHWATER AND SEAWATER

While you may think that drowning in the sea would be more common, as many as 90 per cent of drowning cases occur in freshwater. Owing to the composition of freshwater, which is more similar to our own blood than seawater, you can drown in freshwater in as little as two or three minutes. However, drowning in seawater can take up to 10 minutes.

## 5. DELAYED DROWNING CAN OCCUR AFTER YOU GET OUT OF THE WATER

There are two types of delayed drowning: dry drowning and secondary drowning. Dry drowning occurs when you inhale water through the nose or mouth, causing a spasm in the airway and preventing air from entering the lungs. Secondary drowning results from a swelling of the air sacs in the lungs.

# 5 NATURAL ALTERNATIVES TO deodorant

If you are looking for a more natural way to banish body odour, then we can help you. Check out these five deodorant alternatives that are completely chemical-free and promise to keep you feeling and smelling fresh for longer.

### Witch hazel

Not just great at soothing sunburn and stopping spots, witch hazel is also a natural astringent and an anti-inflammatory, meaning it can soak up excess moisture and kill unwanted bacteria. Plus, it gets rid of odour fast.  
Simply place a dab of witch hazel onto a cotton cloth and rub it on your underarm area. Reapply as and when needed.

### Baking soda

Baking soda makes a great natural personal hygiene product and can be highly effective in banishing underarm smells. Mix 1/8 tsp with a little water and rub under your arms. Or to combat perspiration, mix one part baking soda with six parts cornflour and dust the affected area. Avoid if you have sensitive skin.

### Lemon juice

Lemon juice contains citric acid, which has the ability to naturally get rid of odour-causing bacteria. All you need to do is squeeze 1 tsp of lemon juice onto a cotton ball and apply to your underarms. Do not do this directly after shaving.

### Apple cider vinegar

This clever ingredient is antibacterial and is able to both absorb and neutralise unpleasant odours. Simply mix 1 tbsp with 1 tbsp of water and apply under your arms using a clean cloth.

### Coconut oil

Coconut oil is antiviral and antibacterial, so is the perfect ingredient for eliminating odours caused by bacteria. Take 1/4 tsp of coconut oil and rub it directly under your arms using a cotton cloth. Allow to dry completely before dressing as it can stain clothes.

# CAN YOU manage?

## WHAT YOU NEED TO KNOW ABOUT HIRING A PROPERTY MANAGEMENT COMPANY

**R**enting out a property and being a landlord is not an easy job. If you have a property to let, hiring a property management company could be one way of making the job a little easier.

Should you hire a property management company to take care of your rental? Take a look at the pros and cons to help you make the right choice for you.

> Using a property management company could make you less aware of what's going on with your property.

### Why hire a property management company?

Ultimately, hiring a property management company saves time, helping you benefit from a rental income without the hassle of dealing with tenants or maintenance. It's not a choice for everyone, but it could be the ideal solution if you don't have much time on your hands. Make some enquiries and find a company you can trust.

### Pros of hiring a property management company:

- > Ease the responsibility of property management. From collecting rent to maintenance, they'll take care of everything on your behalf.
- > Property management companies will source and vet tenants, taking the responsibility off you.
- > Management companies with their own vendors and contractors could save you money on maintenance costs compared to sorting the work yourself.

### Cons of hiring a property management company:

- > You'll pay a fee to use a property management company, which will affect how much money you take home from rental fees.
- > As property management companies manage multiple properties, tenants might not get the same attention a hands-on landlord would provide.

# Cashback CATASTROPHE?

DO CASHBACK CREDIT CARDS REALLY WORK? AND WHAT SHOULD YOU LOOK OUT FOR WHEN USING THEM?

Offering incentives to put purchases on one card over another is an obvious way of engaging consumers, but the psychology behind cashback cards means you can very quickly be sucked into a trap where the pursuit of a discount becomes a cost, not a reward.

### THE PREMISE

For every pound you spend, you are paid a percentage back by the card provider. Typical rates are one per cent, but bigger rewards and other initiatives are available if you shop around.

### WHEN CASHBACK CREDIT CARDS WORK

Cashback credit cards should only be used for things you are going to buy anyway, and never as a method for justifying a purchase because it in effect offers a small discount.

Consider your ability to clear the credit card balance, too – if what you're putting on a card is

going to be paid off, then there's no reason not to sign up to a cashback deal... providing you only buy things you'd be equally happy to purchase for cash.

The harsh reality is lenders will quickly tap into the psychology of people not only getting money back on a purchase, but also not having to pay for 30 days or more, and that leads to treating ourselves when there's little justification, and making expensive purchases that we may come to regret. To ensure you are clearing the balance, consider setting up a direct debit.

### WHEN CASHBACK CREDIT CARDS DON'T WORK

If you're not clearing your balance each month, or you pay an annual fee for your card, the amount you will pay will very likely wipe out the cashback earned on your card, making it a false economy. Explore the various rates and do the maths.

A cashback credit card needs to be handled by someone who is regimented, knows their numbers and can exercise self-control. Many of us just aren't configured that way... and if that's you, steer clear.

# Rosemary

A hardy herb that will grow with abandon once established, rosemary has a long history of culinary, aromatic and medicinal uses.

### WHAT ARE THE HEALTH BENEFITS OF ROSEMARY?

- > A rich source of antioxidants and anti-inflammatory compounds
- > Improves digestion and helps to treat indigestion
- > Enhances memory and concentration
- > Relieves stress and anxiety
- > Protects against cancer
- > Contains carnosic acid which can protect the brain
- > May be able to help prevent Alzheimer's.

### HOW TO USE ROSEMARY IN THE KITCHEN

#### Rosemary salt

To create a rosemary-infused salt, fill a cup with rosemary leaves pulled from the stem and place in a bowl with 3 cups of salt. Stir together, cover and leave to sit for 2-3 weeks.

#### Rosemary oil

To make rosemary-infused oil, pour 2 cups of olive oil into a small pan and allow to simmer. Remove from the heat and add 3-4 dry sprigs of rosemary. Pour into a sterilised jar and cover with a lid.

#### Rosemary sugar syrup

Rosemary sugar syrup can be drizzled over cakes, yogurt or fresh fruit for a sweet and fragrant twist. Bring 1 cup of water to the boil and add 2 cups of sugar and 3-4 sprigs of rosemary. Once the sugar has dissolved, remove from the heat and take out the rosemary. Pour into a sterilised jar.

#### Rosemary lemonade

To make refreshing rosemary lemonade, simply bring 2½ cups of sugar to a boil, remove from the heat and add 9 sprigs of rosemary. Leave to steep for 30 minutes and strain. Add ½ cup of fresh lemon juice and 4 cups of cold water. Chill and serve over ice on its own or with your favourite gin.

#### Rosemary butter

Soften a stick of butter (but don't melt it) and blend with rosemary leaves that have been removed from the stem and diced into small pieces. Slather on crackers, bread, meat or fish.

# Sustainable Salads

Are you fed up with finding soggy, slimy and generally sorry-looking salad in your fridge? Keep your leaves looking (and tasting) lovely for longer with our top tips for how to keep salad fresh.

your salad home from the supermarket, open it up and remove any spoilt or squishy leaves that could potentially cause fresher leaves to wilt. It can also be a good idea to fluff up your salad before storing.

**GIVE IT SOME TLC:** If you fling your salad in your shopping bag with heavier food and drink items such as tins and bottles, then your leaves are highly likely to become bruised and battered. Instead, handle your salad with care and it will be less likely to spoil.

**PLACE IN AN AIRTIGHT CONTAINER:** Store your salad leaves in an airtight plastic container that has been lined with a paper towel. This will help to absorb any moisture and keep your leaves fresher for longer.

**DRY YOUR SALAD:** Pre-packaged salads are usually ready to eat and do not require washing. However, sometimes the leaves can look a little damp. If this is the case, give them a quick spin in a salad spinner to remove any excess moisture. Alternatively, gently pat them with a dry cloth or tea towel.

**STORE IN THE FRIDGE:** Salad leaves should be kept in the crisper drawer of your fridge as this provides the optimal temperature for fresh fruits and vegetables. This should also help to ensure that your salad does not become partially frozen.

**REMOVE ANY SPOILT LEAVES:** When you get

**FOLLOW THE SEVEN-DAY RULE:** Even if you follow the above tips, bagged salad leaves are not designed to last longer than a week. After this time, it is usually a case of use it or lose it.

# BRA 101: *style guide*

**D**id you know that the average woman owns between nine and 12 bras? However, the majority purchase the same type of bra time and time again. If this sounds familiar, maybe it's time to branch out and try a different style?

**Balconette bra**  
A popular shape that provides a rounded look and great support, this type of bra offers less coverage than a full cup style. With wider straps, a balconette bra is not the best choice for women with narrow shoulders. However, it is perfect for any occasion where you want to achieve great cleavage.

**Plunge bra**  
Offering less coverage but plenty of support, a plunge bra is best worn with low-cut outfits. A good choice for women with a fuller chest who are looking for a comfy yet sexy bra.

**Full cup bra**  
As the name suggests, a full cup bra provides all-over coverage and support. The straps tend to be closer-set, making them ideal for women who have narrow shoulders.

**T-shirt bra**  
Available with padded or non-padded cups, every woman should own at least one t-shirt bra. Offering a seamlessly smooth silhouette, this style of bra is designed to be worn under tight-fitting tops but can be worn with almost anything.

**Strapless bra**  
Having come a long way in their design, strapless bras are now a feasible option for small- and large-chested women alike. Created to prevent slipping, strapless bras give you the freedom to wear whatever you want without any straps on show.

**Sports bra**  
Providing maximum hold and minimum movement, sports bras are usually made of non-stretch fabric designed to beat the bounce.
