## Editor's notes...

Hello and welcome to this month's edition of VISIONEppingTheydon.

The end of lockdown has given us all a chance to make changes to our routines. I've certainly noticed a difference when out and about on the high street, with more people feeling confident enough to step out and explore their local area.

I've made an effort to frequent local businesses, particularly those that have supported **VISION**, and to keep my pound local. It's more important than ever to ensure businesses have our support.

Brett Shohet, Editor I've been making up for months of inactivity and am now averaging 14,000 steps a day. After three lockdowns spent sitting on the sofa and eating junk food, I've made a conscious effort to be healthier. As a result, I feel more focused and ready to take on whatever life throws at me.

There's certainly a sense that we are now coming out of the other side of this dark time. A weight has been lifted, and with this, a renewed sense of optimism as new bookings and enquiries from local businesses flood my inbox. It seems everyone is ready to get back out there and prepare for better times ahead.

As for VISION, we're looking to expand into new areas in the future, so watch this space...

This is your town's hyperlocal magazine, delivering to homes and businesses every month.

# How to repair claumouged hour

o you know your sprays from your serums? Your oils from your creams? If not, we are here to help. Leave-in conditioners are the ideal haircare products for sun-damaged hair, but which one is best for your hair type?

#### Why use leave-in conditioner?

Leave-in conditioner is essentially a barrier, protecting your hair from drying out, becoming tangled and getting stripped of its nutrients.

Which type of leave-in conditioner should I use for my sun-damaged hair?

Conditioner in the form of milk is designed to be extremely lightweight and therefore is best suited to those with fine or flat hair. Hair milk is also good for adding body, shine and silkiness to your hair.

Oil is ideal for dry and damaged hair. You may be worried that leave-in hair oils will make your hair appear greasy. Fortunately, you can now find some great lightweight hair oils that can be applied to the roots to banish frizz and moisturise each strand of hair.

If your hair needs a lift, then a volumising leave-in serum is exactly what you need. Unlike other volumising haircare products, a conditioning serum won't dry out your hair, but instead will leave it feeling bouncy, light and hydrated.

A booster spray is the perfect conditioning product for hair that has been damaged by colouring or heat styling, with the ability to strengthen elasticity and reduce both hair loss and breakage.

If you have thick, unmanageable hair, a moisturising conditioning cream can add shine and help to tame frizz, as well as make blow-drying less of a chore.

Top tip: Prevention is better than cure, so always make sure you protect your hair from the sun's rays by using a daily UV hair protector.

Add white vinegar

If you want brighter whites that are also super soft against your skin, simply add a small cup of white vinegar to your usual whites cycle and wait for the magic to happen. Don't worry about the smell; it will dissipate after drying. Vinegar can also be sprayed on spot stains and collar/underarm stains.

Use baking soda

If you don't have any white vinegar to hand, baking soda can be just as effective at whitening your whites. Just combine four litres of water with one cup of baking soda and drop in all your white laundry. Leave to soak and then thoroughly rinse.

#### Soak in dissolved aspirin

Not just for banishing headaches, aspirin is also great at breaking down stains on your whites. To get the chemical process started, dissolve five white (not coloured) aspirin pills in a bucket of water and then add your items. Leave to soak and then wash as usual.

#### Lav in the sun

After your whites have been washed, rather than put them in the tumble dryer, use the natural lightening properties of the sun to whiten them. Aim to hang them out during the hottest part of the day to enjoy bright whites and fresh-smelling laundry.

#### Why you need to Know Your Numbers! 1 in 2 strokes and heart attacks are the result of

serious illnesses.

home monitoring.

high blood pressure

o vou know vour blood pressure numbers?

High blood pressure usually has no

symptoms, but it can cause heart attacks,

strokes, kidney disease, dementia and several other

Know Your Numbers! Week 2021 aims to seek

out those with undiagnosed and uncontrolled high

blood pressure and promote the importance of

- 1 in 3 adults in the UK have high blood pressure
- 1 in 2 adults with high blood pressure don't know they have it or aren't receiving treatment
- Thigh blood pressure costs the NHS £2.1billion every year.

#### How to check your blood pressure

In previous years, Blood Pressure UK set up free

checks across the country, but owing to social distancing measures, this year it is promoting home monitoring. This allows you to have complete control over your blood pressure and can help put your mind

**Know Your Numbers!** 

#### How to choose the right blood pressure monitor

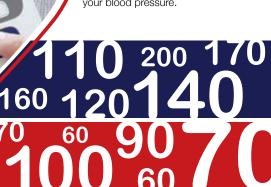

There is a wide range of home blood pressure monitors available and you need to pick one that will deliver accuracy and reliability. Look for a monitor that is:

- Clinically validated. This means that it has been tested and gives results you can trust
- Talendaria Adigital monitor with an upper arm cuff is easy to use and offers the most reliability
- Within your budget. You don't need to select the most expensive machine on the market.

You can find a list of clinically validated home blood pressure monitors on the British and Irish Hypertension Society website.

#### What is the ideal blood pressure?

An ideal blood pressure is under 120/80mmHq. pressure is considered to be 140/90mmHG or higher. Seek immediate medical help if your blood pressure is 180/120mmHG or higher or you are experiencing severe headaches or blurry vision that you think is being caused by your blood pressure.

## ow at right

There is something magical about running at night when the roads are quieter, there are fewer people on the pavements, and the moon is glowing. However, if you are a late-night (or early morning) jogger, you need to make sure you are keeping vourself safe.

#### TELL SOMEONE WHERE YOU ARE GOING

Before you set off on your evening run, be sure to tell a family member or friend where you are going and how long you are going to be.

#### **RUN WITH SOMEONE ELSE**

If you are nervous about running at night, ask a friend to come running with you or join a local running group. Remember, there is safety in numbers.

Make sure you are visible from the front and the back

#### **CHOOSE A WELL-LIT ROUTE**

If possible, pick a well-lit route for your night-time runs, or invest in a running head torch so that you can see any tripping hazards.

#### DON'T LISTEN TO LOUD MUSIC

Although your running playlist may help keep you motivated, listening to loud music while running at night is extremely dangerous. Instead, leave your headphones at home or use a low-volume setting and stay alert to what is happening around you.

#### **RUN AGAINST THE TRAFFIC**

If you prefer to run on the roads rather than in the park at night, make sure you run against the traffic so that you can see any vehicles heading towards you. Always be careful when crossing the road and wait for vehicles to pass before attempting to cross.

If you feel unsafe, head for a well-lit area or go home. It is always better to be overly cautious than a little

f the beverage sake conjures up memories of a warm boozy elixir, washing down a mouthful of sticky, salty noodles - not unpleasant, but decidedly unrefined

- you may struggle with the concept of this ancient Japanese rice drink becoming a celebrated spirit among bartenders and liquor connoisseurs.

Made in much the same way as beer - polished rice is washed and steamed, then cooled before the addition of koji (a mould culture) breaks down the enzymes into fermentable sugars - sake has an umami flavour profile that makes it compatible with almost every kind of meal, or, as the Japanese proverb states: "Sake never fights with food."

As with most things, you get what you pay for, and in the case of sake, it is the polishing ratio of the rice the more milled it is with the husk and outer portion of the rice kernel removed - that determines how refined the finished product is. The more highly polished the grain, the better the quality and the higher the price,

with high-end sakes reaching the same price points as certain top-shelf whiskies.

That neatly brings us to the notion that sake ought to be served warm, which is true if it is made from low-polished rice. However, the more refined the sake, the more its floral, fruity and rich flavours sing, and the more delicious it becomes when served chilled... sticky noodles optional.

#### **TYPES OF SAKE:**

- > Daiginjo: A super-premium sake with minimum 50 per cent polishing ratio. Best served chilled.
- > Ginjo: A premium fragrant sake with minimum 40 per cent polishing ratio. Best served chilled.
- > Honjozo: A light, premium sake polished to a minimum of 70 per cent (unlike most premium sake, honjozo is best served heated gently to 45-50°C).
- > Junmai: Sake made with no minimum polishing ratio (heat gently to 45–50°C).

# ORGANIC FOOD DRINK

#### PROS AND CONS OF CHOOSING ORGANIC

rganic September is a month-long campaign to raise awareness of the benefits of organic food and farming, but is organic food really as good as it's made out to be?

#### WHAT DOES 'ORGANIC' MEAN?

The term 'organic' refers to the way agricultural products are grown and processed. Standards vary worldwide but, as a general rule, organic produce must be grown without the use of synthetic herbicides, pesticides and fertilisers or bioengineered genes.

#### PROS FOR BUYING ORGANIC FOOD:

- > Organic farming is friendlier to the environment
- > Organic processed food contains no hydrogenated fat
- > Organic food is often fresher
- > Organic farming ensures that animals are fed a natural diet and kept in free-range conditions
- > Genetically modified (GM) crops are not permitted under organic farming standards
- > Organic food contains lower levels of pesticide residues.

#### CONS FOR BUYING ORGANIC FOOD:

- > Organic food tends to go off quicker than non-organic food as it does not contain artificial preservatives
- > Organic food is more expensive
- > Organic food production does allow a limited number of chemicals to be used
- > Some research suggests that organic food is no safer or more nutritious than non-organic food.

#### ORGANIC FOOD BUYING TIPS:

- 1. Buy in season as this is when fruits and vegetables are freshest and most affordable.
- 2. Prioritise meat, eggs and dairy if your budget can
- 3. Know your produce pesticide levels. Some types of conventionally grown produce are higher in pesticides than others.
- 4. Shop around. You can find organic produce at your local grocer, farmer's market, online and even in the freezer section of your supermarket.
- 5. Remember that organic food doesn't always mean healthy. Organic baked goods, desserts and snacks can still be high in sugar, salt and fat.

rom dust mites to dead skin, dirt to dog hair. your mattress could be harbouring a whole host of unpleasant debris, especially if you fail to clean it once every six months as recommended by cleaning experts.

Fortunately, cleaning a mattress is much easier than you might think...

#### **STEP 1: GATHER YOUR CLEANING SUPPLIES**

To deep clean your mattress, you will need:

- > A vacuum cleaner with an upholstery attachment
- An enzyme-based cleaner
- > Baking soda
- > Cloths
- > Cold water

#### STEP 2: VACUUM THE MATTRESS

Go over the entire surface of your mattress using the upholstery attachment on your vacuum cleaner. Don't forget to do the sides, and pay special attention to the seams.

#### STEP 3: SPOT CLEAN THE MATTRESS

You should never soak your mattress or apply water directly to it, especially if you have a memory foam one, so you need to spot clean any stains instead using an enzyme-based cleaner. Spray the cleaner on to a cloth and blot the affected area. Then apply cold water to a different cloth and blot again.

#### STEP 4: SPRINKLE BAKING SODA

If you can't put your mattress outside for some fresh air, baking soda is the next best thing. Simply sprinkle a layer over your whole mattress, leave for several hours, or ideally overnight, and the baking soda will break down any acid and absorb any remaining moisture or odours. Vacuum again.

#### **STEP 5: FLIP THE MATTRESS**

Now that one side is spotless, flip your mattress over and repeat all of the above steps on the other side.

#### **HOW TO PROTECT YOUR MATTRESS**

- > Invest in a mattress protector
- Use fitted sheets that are washed regularly
- > Give your pets their own designated beds
- Rotate every two to six months
- Strip your mattress, open the windows and let your mattress air once a month

MADE IN®

CALL US TO BOOK AN APPOINTMENT AT OUR STUNNING NEW LIFESTYLE SHOWROOM.

## FRONT DOOR

As they say, first impressions are everything, and this is particularly true when it comes to your home. Whether you are looking to sell or you simply want your property to look its best, these front door ideas promise to boost your kerb appeal

and make your neighbours green with envy.

WONDERFUL WOOD: If you are looking to invest in a completely new front door, you can't go wrong with good old, reliable wood.

Offering warmth and visual appeal, wooden doors can be easily refreshed and updated and, when looked after properly, can last a lifetime.

CLEVER COMPOSITE: A slightly more luxurious option to uPVC, composite doors are made using a variety of different materials, such as timber, reinforced plastic and, occasionally, steel. Offering durability and longevity, composite doors will not warp, rot or crack, so there will never be a need to sand, strip or paint them.

Although white remains the most popular choice for front doors, bold colours, such as vibrant reds and deep blues, are becoming increasingly popular for properties in cities. If you have a brick house, look for shades that sit opposite on the colour wheel. Red bricks suit blue or green tones, whereas sandstone looks great with yellow or red.

DOUBLE UP: If your property boasts a wide entrance, you are in the fortunate position to be able to select a double door. Perfect for homeowners who are looking for the wow factor, double doors come in a range of different styles and colours, with options to suit both traditional and contemporary homes.

oasts a ortunate double ers who double

ADDED TOUCHES: If you don't want to invest in a new front door, why not update your current one?

- > Add a seasonal wreath
- > Invest in new hardware, such as door handles and a letterbox
- > Upgrade your lighting with lanterns or a hanging door pendant

# ALTERNATIVE USES FOR

ave you got a near-empty bottle of vodka gathering dust in your cupboard? If your answer is yes, you will be pleased to know that there are countless ways to use this odourless spirit around your home.

TO DEODORISE CLOTHES: Fallen behind on your washing? Simply spritz your blazer or suit jacket with vodka and marvel as the spirit eliminates smelly bacteria and leaves your clothes odour-free.

TO CLEAN WINDOWS: Getting your windows streak-free can be a challenge, but not anymore. All you need to do is create your own homemade window cleaner using one cup of water, half a cup of vodka and 1/4 teaspoon baking soda. Spray directly onto the glass and wipe with a microfibre cloth.

TO REMOVE GREASE: Both straight vodka and a one-toone vodka-water mix can be used to degrease range hoods, backsplashes and countertops. You can also add a few tablespoons of vodka to your washing-up bowl to cut through the grease on oily dishes.

TO PROLONG THE LIFE OF RAZORS: Banish dull razors for good by cleaning the blade and then soaking in a glass of vodka for 10-15 minutes. Not only does this completely disinfect your razor, but it also helps to remove rust.

TO REMOVE MOULD: Vodka can be used to quickly and effectively clean mouldy spots around your home. Just pour some vodka directly onto the affected area and then scrub with a sturdy brush.

TO PRESERVE PLANTS: Vodka has the ability to inhibit ethylene production, so add a few drops of undiluted vodka to cut flowers or plants to extend their lifespan.

TO REMOVE VOMIT STAINS: Sprav diluted vodka directly on to a vomit stain. scrub and then blot dry. Voila! No more nasty stain.

If there's one home trend that Instagram can't get enough of, it's bouclé. Cosy, cute and classy all at once, it's taking over interiors all across the internet.

But what is bouclé, and why do you need it in your home? The word bouclé comes from the French 'boucler', meaning 'to curl'. A type of wool fabric, it's made from looped varn and has a heavy texture that not only looks stylish, but also has a soft, comforting feel.

Bouclé is proving to be the fabric of the year thanks to some inspiring upcycling projects and an influx of bouclé home accessories that add style to your home space, without compromising on comfort.

There are plenty of great ways to bring bouclé into your interior, ready to welcome the autumn season. Some of the main ways of introducing bouclé include:

THE OCCASIONAL CHAIR: A bouclé occasional chair makes a great addition to any space. Ideal for your bedroom or for additional seating in your living room, your new chair will make the perfect addition to your home. It can also fill a hallway or landing space to add an extra cosy touch.

THE STATEMENT BENCH: If you want to add a statement to your home, then a bouclé bench is a simple and affordable way to do it. Perfect for the hallway or your kitchen, a bouclé bench will add a country chic look to your home.

THE STYLISH ACCESSORY: If you want to do bouclé on a budget, then choosing some woollen accessories is one of the easiest ways to embrace the trend. Bouclé cushions and throws can create a softer look, and the neutral colours will blend in easily with your existing decor. As one of the top trends for the winter months, vou can be sure of finding bouclé accessories all over the high street.

THE FURNITURE MAKEOVER: If you've got a tired old armchair or sofa in need of a facelift, then a bouclé makeover could be just what vou need. You could also source a second-hand item to reupholster for an affordable and fun upcycling project. Check out #boucle on Instagram to get some inspiration.

Bouclé adds a stylish Scandinavian touch that adds the perfect amount of texture to your home. Will you be embracing the bouclé trend this season?

### IS YOUR CONSERVATORY **TOO HOT IN THE SUMMER** AND TOO COLD IN THE WINTER?

Insulate your conservatory with Apex Conservatory Insulation, and turn it into a bright and airy space you can use all year round.

Insulating your conservatory delivers stunning and immediate benefits, keeping it warmer in winter and cooler in summer, as well as reducing your homes carbon emissions, cost savings on your energy bills and reducing the outside noise levels when raining.

## LOCAL NEWS

from your neighbourhood

Care home team wins award for hard work and dedication

Aresidential home in Epping has been announced as the winner of a prestigious award.

Cunningham House recently won the Care Home Team Award at the south east Regional Great British Care Awards (GBCA) 2020.

Cunningham House, managed by the charity Abbeyfield, provides dementia-specialist care and support for up to 54 people.

The awards ceremony, which took place at the Hilton Brighton Metropole, was delayed from its original date in October 2020 due to the coronavirus pandemic.

A number of Cunningham House staff were present to accept the award, including operations manager, Melanie Kemsley, and heads of care, Ann Bird and Jade Shaw.

They were accompanied by Abbeyfield's regional director, Kirstan Sparshott, and business manager.

Amanda said: "This award could not have come at a better time and we are immensely proud of the whole care team at Cunningham House. They deserve recognition for all the hard work, dedication and commitment to deliver a first-class service during such a challenging time."

Cunningham House was also shortlisted for two other awards: Melanie was shortlisted for the Care Home Registered Manager Award, while housekeeping manager, Karl Smith, was a finalist in the Ancillary Worker Award category. Abbeyfield was also shortlisted for the Care Employer Award.

The care team at Cunningham House will now be shortlisted for the GBCA national awards, with the ceremony taking place at the ICC in Birmingham on September 25.

### **High Street changes** may become permanent

Pavement widening in Epping High Street has helped to make the town centre a more appealing place to visit and shop, according to Epping Forest District Council. Works were recently completed to introduce new planters and extra seating, together with more space to walk, and the changes have received many positive

comments so far. One resident said: "As a mum who uses the High Street with a buggy and a daughter with mobility problems, I love the new pavements; they are great."

Another added: "I am really pleased the council has widened the pavement. I hope they see sense and keep it long term. It's much easier walking round the High Street now."

Initially introduced to support social distancing during the COVID-19 pandemic, the changes have reportedly brightened up the town centre and made it easier to navigate.

Eight parking spaces were lost by widening the pavements, but none of these was a disabled space.

A consultation on whether the new features should remain closed on September 10.

Epping Forest District Council is now considering applying to Essex County Council to make the changes permanent.

## Volunteers needed as bus charity gets back on the road

Alocal charity providing transport around Epping Forest is finally back up and running after being severely affected by the COVID-19 pandemic - and it's looking for volunteers.

Epping Forest and Harlow Community Transport (EHCT) provides elderly, disabled and isolated residents with public transport, using their armada of minibuses and cars.

Though the pandemic meant a limited service, including home visits to customers to help prevent

them feeling isolated, the return to regular service will be a lifeline for the charity's patrons.

In line with government guidelines, the buses have safety screens between the driver and passengers, all on board must wear face masks, and staff are regularly taking lateral flow tests to keep users of the service safe.

The charity is looking for those willing to give up a few hours a week to drive its vehicles, with training. support and expenses provided.

Trustees are also wanted to help run the organisation. Budding volunteers should contact EHCT via 01992 579556 or email efct@efcommunitytransport.org.uk

### **Police appeal for information** following road collision

ssex Police are appealing for witnesses to a Collision that occurred in Epping High Street on Thursday, August 5.

At around 5.55pm, a motorcycle and car were involved in a collision outside the fire station. The rider of the motorcycle - a man in his 60s - was taken to hospital by air ambulance after sustaining serious iniuries.

The driver and passenger of the BMW were uninjured.

The road was closed for approximately two hours while emergency services were at the scene.

Anyone who saw the collision or has dashcam footage is asked to contact police, quoting incident 835 of 5 August.

You can submit a report online at www.essex.police. uk or use the live chat button to speak to an online operator between 7am and 11pm. Alternatively, you

Information can also be given to independent charity Crimestoppers, 100 per cent anonymously, on 0800 555 111.

## Man, 39, found guilty of rape and threats to kill

pecialist officers have secured justice for a woman Owho was raped by a man from Theydon Bois.

Paul Ballard, 39, was found guilty on all counts at Chelmsford Crown Court after denying rape, attempted rape, assault, criminal damage and threats

Ballard, of Woodland Way, Theydon Bois, attacked the victim at around 5am on September 19, 2020, in a hotel in Hatfield Heath.

During the incident, Ballard told the victim: "Your life is ending. You're dying tonight."

After the ordeal, the victim fled the room and found a member of hotel staff, who then called the police.

Essex Police officers attended and safeguarded the woman, who has been supported throughout the last 11 months by specialist officers.

Ballard claimed to have had consensual sex with the woman and denied threatening her.

But the jury took just two hours to convict him on all counts, and he was due to be sentenced at Chelmsford Crown Court on September 6, as **VISION**EppingTheydon went to print.

Detective Constable Dan Lambert, who led the investigation, said: "Ballard has never taken responsibility for his actions - indeed, he continued to deny them throughout the trial.

"It is telling that the jury arrived at a verdict within two hours.

"I hope this provides some comfort to his victim, whom he subjected to a terrifying ordeal."

### **Ex-footballer aims to** raise money for charity

Aformer professional footballer from Theydon Bois is battling cancer for the second time.

Lloyd Scott MBE, who played at various clubs including Blackpool, Leyton Orient and Watford, was diagnosed with stage three synovial sarcoma cancer in 1989. Having just completed seven weeks of radiotherapy, he has now been diagnosed with sarcoma for a second time.

Scott is known for his various fundraising activities, including famously running the London Marathon in a diving suit weighing 130lbs. He has raised a total of £5million for charity and was awarded an MBE for his work.

He is now planning to don his diving suit once again to walk up the steps along the Great Wall of China and raise money for Sarcoma UK, which supports people with sarcoma cancer, and The Blood Fund, which assists those with leukaemia.

He also hopes to publish a book next year about his life and experiences.

He believes: "There's nothing you can't do or overcome if you put your mind to it."

### **Elderly residents left without** hot water for eight days

ne of the UK's largest housing associations has Japologised after residents at a Theydon Bois retirement complex were left without hot water and heating for nearly eight days.

Elderly and disabled residents of Robert Daniels Court say that they have been experiencing problems such as this for four years, despite paying a service charge for use of the utilities.

But a recent week-long stretch in July without utilities was a breaking point.

Residents launched a petition demanding action from housing assocation. Home Group, which owns

the complex.

Home Group has issued an apology to residents and has promised to find a permanent solution.

A temporary fix has now been installed and residents have met with the complex's managers, who affirmed the company's promise to provide a resolution to the problem.

### Three people dead in devastating collision on M25

ssex Police confirmed last month that a number of people had died in a collision on the M25, near the Epping Theydon exit.

On Monday, August 23, three people were killed and a fourth person remains in hospital with lifethreatening injuries.

Officers were called to the scene between junctions 27 and 26, shortly before 6.15pm.

Detective Sergeant Steve Holmes, from the Serious Collision Investigation Unit, spoke from the scene to thank those who had assisted officers in their investigation so far.

He said: "This evening has been incredibly challenging and we are continuing to work as quickly as we can to piece together exactly what led to this tragic incident.

"My thoughts, and those of all officers on the scene, are with the families of those who lost their lives this evenina.

"At present, two drivers have been arrested on suspicion of causing death by dangerous driving and on suspicion of causing serious injury by dangerous drivina.

"I need anyone with further information to come forward.

"I would like to thank everyone on the M25 for their patience - I know it's been a long night, and our colleagues in Highways England are aiming to get you off of the motorway by 2am.

"Please make sure you get home safely, and if you have any information at all that can help us, don't hesitate to report it."

Report information online at www.essex.police.uk

WHAT YOU NEED TO KNOW

ne global CBD pet market size was valued at a whopping £20.2million in 2019 and is expected to grow at a compound annual rate of 40.3 per cent between 2020 and 2027.

From tinctures to topicals to treats, there is a whole host of CBD products that are specifically designed for pets. However, do they work and, most importantly, are they safe?

#### WHAT IS CBD?

CBD stands for cannabidiol and is the second most prevalent active ingredient of cannabis. Derived from the hemp plant, unlike tetrahydrocannabinol (THC), CBD does not have any psychoactive properties and will therefore not make you or your pet feel 'high'.

#### WHAT ARE THE BENEFITS OF CBD FOR PETS?

Although research is still ongoing, there are several potential benefits of CBD for pets, including:

- \* Reducing stress and/or anxiety, including separation anxiety
- \* Acting as a natural pain reliever, especially for inflammatory conditions such as arthritis

- \* Enhancing appetite
- \* Reducing nausea and/or vomiting
- \* Treating skin conditions
- \* Helping wounds to heal faster

#### IS CBD SAFE FOR PETS?

There is no evidence to suggest that CBD is toxic to dogs or cats, as long as it is given in the right doses and is purchased from a trusted manufacturer. In terms of potential side effects, there is currently no scientific data on CBD usage in pets but, based on humans, they could possibly experience:

- \* Dry mouth
- ★ Lowered blood pressure
- ⋆ Drowsiness

#### IS CBD FOR PETS LEGAL IN THE UK?

CBD oil has not yet been approved by the Veterinary Medicines Directorate or the Food Standards Agency (FDA) as an official medicine. If you think that CBD could help your pet, you need to speak to your vet first, as only they can legally prescribe CBD to your animal.

# GET COULS

ur reliance on the cloud - that is, audit who you're sharing with. remote storage of everything from music to personal documents to photos - has transformed our lives, not to mention the speed of our computers and

Gone are the days when our life's memories were held on hard drives or burned onto CDs. Yet there are growing fears that what we are gaining in terms of convenience, we may be losing as far as security goes, following a spate of data breaches.

With that in mind, here are five ways to keep your cloud storage safe:

Using a strong password is a must, whether protecting your data or simply logging into something as mundane as a parking app. Long, unique passwords with a combination of upperand lowercase letters, with numbers and symbols, are best.

Sharing via the cloud is one of its best features, but this 'foot in the door' also provides a route for others to potentially sneak in. It's therefore advised you regularly

It's a phrase that's becoming embedded in our subconscious, and plays itself out usually by having to enter a six-digit code when logging into a platform or system. In the moment, it feels like a hassle, but by doubling your protection, you're doubling your security.

While hackers may not be able to access your cloud storage via the conventional route, it could be that they can gain entry though connected apps or programmes (such as calendar or email), so regular checks and removal of any third-party apps you're not using is a great way of keeping your information secure.

Finally, if the worst thing happens and you do have someone sniffing around where they shouldn't be, by activating notifications, vou'll quickly be made aware of a foreign body and can take action.

## SELF-CATERING vs. ALL-INCLUSIVE:

## Which one is

I olidaymakers tend to fall into two categories: those who swear by the savings of selfcatering breaks and those who love the convenience of all-inclusive. But which one is the all-round winner? Let's take a closer look.

#### PRICE

**Self-catering:** You will pay less per head up front. but you will have to budget for food and drinks once you have arrived.

**All-inclusive:** Costs are higher to book, but you are free to indulae without having to count the pennies. Winner: All-inclusive

#### CHOICE

**Self-catering:** You can enjoy as much authentic cuisine as you want, either in a local restaurant or home-cooked at your accommodation.

All-inclusive: You are restricted to your hotel unless you want to pay extra.

Winner: Self-catering

#### ACCESSIBILITY

Self-catering: If your chosen accommodation is off the beaten track, you may have to utilise local

public transport to buy provisions. All-inclusive: With everything on your doorstep - or even on your bed if your hotel has room service - you won't even have to think about venturing out for a drink, snack or three-course meal.

Winner: All-inclusive

#### FREEDOM

Self-catering: Allowing you to dine where you like, when you like, you could potentially eat at a different restaurant for every meal if you wanted to.

All-inclusive: With most hotels having set dining times, you are restricted as to when and what you can eat. Plus, you may feel less inclined to leave the hotel once you have already paid for all your food and drink up front.

Winner: Self-catering

#### SO, WHICH IS THE WINNER?

Tied at two apiece, the real answer lies in what you and your family want from a holiday. Do you like to be spontaneous or do you favour convenience? The choice is yours.

## PERFORM CPR

### ON CHILDREN AND BABIES

#### HOW TO DO CPR ON A CHILD OR A BABY UNDER ONE-YEAR-OLD:

- > Check if the child is responsive. If they do not speak, gesture or open their eves when you communicate with or gently shake them, they are unresponsive.
- > Check that their airway is open and clear by placing one hand on their forehead to tilt their head back and using two fingers from your other hand to lift their chin.
- > See if the child is breathing normally by listening for sounds of breathing and watching to see if their chest moves.
- > If they are unresponsive and not breathing, ask a helper to call 999/112 for emergency help and start CPR immediately. Do not leave the child or baby to make the call.
- > If you are alone, give one minute of CPR as detailed below before calling 999 on speakerphone.
- > To start CPR, place the child on a firm surface and open their airway as explained above.
- > Take your hand from the forehead and pinch the soft part of the nose closed, allowing the mouth to fall open.
- > Take a breath and put your mouth around the child's to make a seal.
- > Blow gently into the mouth for up to one second until the chest rises.
- > Remove your mouth, watch the chest fall and repeat five times.
- > It is vital that you perform rescue breaths, as cardiac arrest in both babies and children is most likely caused by a respiratory problem.
- > Next, kneel by them and put one hand in the centre of their chest.
- > Push down one-third of the depth of the chest, then release pressure so the chest comes back up.
- > For babies under 12 months, place two fingers in the centre of the baby's chest instead of your whole hand.
- > Repeat this 30 times at a rate of 100-120 compressions per minute.
- > Alternate two breaths and 30 compressions until help arrives, the child starts to breathe normally, or a defibrillator is ready to be used.

Use the beat of the song Nellie the Elephant to keep the right pace

# Does your home qualify for a green mortgage

Green mortgages are becoming increasingly popular across the UK, with banks keen to offer sustainable lending and homebuyers embracing more eco-friendly lifestyles.

#### WHAT IS A GREEN MORTGAGE?

Green mortgages are mortgage deals that are offered specifically to people who are looking to buy an environmentally friendly home or make energy-efficient improvements to a property. Typically, green mortgage deals offer cheaper rates when you buy a home that conforms to a specific energy standard. Green mortgages are more commonly available for new builds, but they can also be offered for older properties that have been renovated to meet high energy-efficiency standards.

#### HOW DO GREEN MORTGAGES WORK?

There are currently three main types of green mortgage:

- >Lower rates for people who buy energy-efficient properties
- > Standard mortgages that offer cashback to people who buy energy-efficient properties
- > Mortgages that offer cheaper rates or cashback when people make green home improvements.

#### SHOULD LAPPLY FOR A GREEN MORTGAGE?

If you are thinking about making green home improvements and you want to raise funding to do so, a green mortgage could help you. Alternatively, if you are buying a new build or an existing property with an energy rating of A or B,

you may be eligible for a green mortgage.

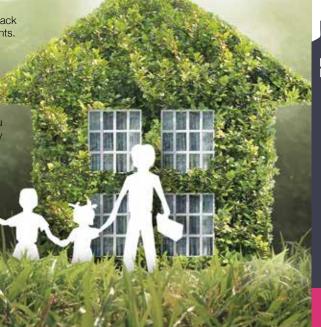

That being said, you should always compare the whole market before committing to a mortgage to ensure you are getting the best deal to suit your financial situation.

#### WHICH LENDERS ARE CURRENTLY OFFERING **GREEN MORTGAGES?**

There are currently 26 lenders offering green mortgage deals, including Barclays, NatWest, Nationwide and Virgin Money, as well as specialist lender, Foundation Home Loans.

#### CAN LANDLORDS TAKE ADVANTAGE OF **GREEN MORTGAGE DEALS?**

Yes, landlords are also eligible for cheaper deals if they can show their properties have improved energy efficiency.

## A new take on property

When you select a premium service, you usually expect to pay more. Kingsmarg Real Estate are not your typical estate agents, and like everything we do, we challenge the notion of what good property services look like. Our philosophy is centred on having a small portfolio of customers at any one time, treating them with excellent customer service, driving a bespoke and strategic marketing campaign and providing sound advice to make the process as smooth as possible.

Whether you are looking to sell or let your property, by taking great care of the process, our approach helps you to achieve a better outcome, faster. This allows us to keep our costs competitive compared to other local agents. Kingsmarg Real Estate; premium property services that work.

Excellent service and communication

Professional, reliable, realistic and do what they say

Informative, patient and very proactive

Provided an excellent personalised service for me

# GET YOUR HEAD IN THE COUCE

n estimated 84 per cent of businesses in the UK are taking advantage of the cloud. In its simplest terms, when something is stored in the cloud, it is kept on internet servers rather than a computer's hard drive. If you are not using this technology, here are the advantages your business is missing out on.

**COST-EFFECTIVENESS:** If you are trying to reduce your operational costs, shifting to cloud computing can help you save a significant amount of money. Running a data centre is expensive, yet cloud providers offer storage options to suit all budgets.

**ENIANCED FLEXIBILITY:** Allowing your employees to access the information they need wherever they are, cloud computing is ideal for remote working. Plus, you can monitor the operations of your business much more effectively.

NO NEED FOR A DISASTER RECOVERY PLAN:

When you store data in the cloud, you do

not need to worry about permanent data loss. Your data will always be available as long as you have an internet connection.

**INCREASED SECURITY:** Protecting your data is paramount in this day and age, and cloud computing is far safer than storing your data on a physical server or data centre. Not only can you delete any confidential information remotely, but clouding platforms are also incredibly difficult to hack.

BOOSTED SCALABILITY: Traditionally, if you experience growth, you need to invest in additional servers and storage. However, with the cloud, you can easily increase your storage space or add new features by simply upgrading your package.

IMPROVED (OLLABORATION: As already mentioned, cloud computing is perfect for remote workers, as employees can complete projects from different locations. However, it is also great for improving team performance, as staff members can easily share real-time data and updates with those both in and outside the office.

## HOW HEALTH, WELLNESS AND WELLBEING IS

BEING INTRODUCED INTO OUR EVERYDAY CAR JOURNEYS

erhaps it's only right, as we spend significant time stuck behind our steering wheels, that our trusty automobiles should be leading the way in wellbeing ideas that can refresh and enrich the mind, body and soul.

The motoring industry is currently researching secondary health functions in our motors. Indeed, the so-called HWW (health, wellness and wellbeing) initiative is now being accelerated in the wake of COVID-19, which has brought greater awareness to ways to improve our health, as well as the need to protect others, whether indoors or out.

Here are some of the ingenuities that could be introduced and enhanced inside our cars in the near future:

#### FOR THE MIND:

> Fatigue and monitoring of stress levels, drinkdriving prevention, comfort monitoring, driver workload estimation.

#### FOR THE BODY:

> Heart-rate, blood pressure, breathing and glucose-level monitoring; drowsiness detection; pollen/allergen monitoring: palm and facial temperature monitoring; muscle therapy; inside and ambient temperature monitoring.

#### FOR THE SOUL:

> Erratic driving pattern recognition.

These initiatives can arrive in one of three ways built-in, brought-in or beamed-in. So while hardware accounts for two of those, the latter gives tech giants such as Apple a route into a market they've perhaps not been able to access in the past.

And having major brands behind the input may well mean that something seemingly niche in 2021. could become mainstream within five years. Your humble car could, very soon, become a vehicle not just for travel, but for health preservation as well.

most successful we have ever produced.

On April 13, 2003, years of preparation came together to create what remains one of the finest performances of any long-distance runner.

Radcliffe stepped up to the start line of the London Marathon knowing that victory should be hers, having won the previous year's race by a colossal three-and-a-half minutes.

As it materialised, her winning margin was almost exactly the same, yet the time of 2:15.25 was

"Fans of this sport will continue viewing her 2:15 performance as iconic, heroic and a stunning sprint of 26.2 miles."

It took 16 years for the record to finally be broken, by Kenyan Brigid Kosgei at the 2019 Chicago Marathon.

Radcliffe, who made two comebacks in the sport after having children, retired in 2015. She was awarded an MBE for services to running, and now works regularly for sports media around the world.

## TEAM GB'S BRILLIANCE SHINES THROUGH AGAIN

There is perhaps a feeling that we were hard done by where the 2020 Tokyo Olympics were concerned, with a lack of spectators and the fact that the whole event seemed so detached from what is an amazing host city... yet try telling that to our swashbuckling Olympians.

In competitive terms, Team GB exceeded expectations yet again, bringing home a total of 22 gold, 21 silver and 22 bronze medals, to finish an extraordinary fourth in the medal table, behind only the US, China and

There were incredible successes all across the board, kickstarted with Adam Peaty charging home in the 100m breaststroke.

Also in the pool, Tom Daley finally got the reward for his years of dedication, producing the performance of a lifetime alongside Matty Lee on the synchronised 10m

We excelled in cycling across all disciplines, saw triathlon golds in the post-Brownlees era, exerted all our usual excellence in equestrian, and powered to pentathlon, boxing and sailing honours.

And what about Max Whitlock? His Tokyo gold saw him become the most successful gymnast ever on the pommel horse, with two Olympic and three world titles.

And while Skve Brown's medal was bronze, it was arguably the young star who courted the greatest quantity of headlines. At just 13-years-old, she confirmed in Tokyo what we all knew: That at such a tender age, the youngest ever British Olympian has the world at her feet - with her trusty skateboard close by.

Yet it's difficult to look beyond Jason and Laura Kenny. The married track cyclists became our greatest Olympians ever in claiming keirin and madison golds - the literal flagbearers for the sport's sensational ascent

in the modern era.

#### DID YOU KNOW?

- ► According to National Geographic, beaver homes, called lodges, are usually constructed of branches and mud
- ▶The giant ground pangolin can grow to more than four-feet long. It is the largest species of pangolin alive today
- The colour and foreheads of beluga whales makes them easy to identify. They are sociable mammals and usually live together in small groups, known as pods
- ▶Tigers live alone and scent-mark their territories to keep their rivals away. Females raise their young, usually with little or no help from males
- Flying squirrels are able to make an 18-degree turn in the air to avoid predators
- ► Giant pandas have vertical slits for pupils, iust like domestic cats

#### **WORD LADDER**

THE AIM: Change the word at the top of the ladder one letter at a time to make the word at the bottom.

HOW TO: Change one letter on each step to make a new word. By the time you reach the end, you should have created the new word.

DO NOT rearrange the order of the letters.

TIP: There is usually more than one way to solve this puzzle.

## **One-Stop Breast Clinic**

The One Stop Rapid Diagnosis Breast Clinic is held on Tuesday and Friday mornings. See one of our consultants, have the imaging and receive the results all in the same appointment.

If you are paying for yourself, just call our appointments line on 01279 602 675 to make an appointment.

If you are using your Private Medical Insurance please call your insurance company to receive your authorisation number.
